

## GOVERNOR COLQUITT REQUESTS INFORMATION

### CHIEF EXECUTIVE OF TEXAS QUERIES PRESIDENT WILSON

**Demands Protection from Mexicans  
Who Cross Rio Grande—Brother-  
in-law of Slain American Tells  
Story of Assault by Mexican Fed-  
erals.**

#### BULLETIN.

Mexico City, Feb. 26.—Indirectly the blame for the execution of William S. Benton was placed on the United States tonight by the Mexican government in a memorandum sent to Washington, copies of which were delivered to the foreign legations here.

Hope is expressed in the memorandum that the United States will recognize the evils which have developed following the permitting of the importation of arms by the rebels and will take steps to remedy.

Austin, Tex., Feb. 26.—A request to know "whom the United States government now recognizes as the constituted authority in Mexican states bordering on the Rio Grande," went forward late today to President Wilson from Governor O. B. Colquitt of Texas.

The request was made for the purpose of demanding the surrender of the "abductors and murderers" of Clemente Vergara, a Texas citizen executed by Mexican federalists.

Then apparently answering the question himself, the governor asked consent of the United States "in view of the condition of the revolution and anarchy in these border states, to send rangers across the Rio Grande in pursuit of lawless elements of either faction when they cross into Texas and commit crimes."

"I insist, Mr. President, that Texas as a sovereign state is entitled to the protection of Texas citizens on the border from an unbearable condition like that which now exists," concluded the message.

#### Assaulted on Mexican Soil.

Laredo, Tex., Feb. 26.—Clemente Vergara, the Texas ranchman, was assaulted by Mexican federal soldiers on the Mexican side of the Rio Grande and imprisoned at Hidalgo Feb. 13th, then two days later he was hanged from a tree three miles from that city and the body left unburied for until two days ago, when it was secretly removed, according to S. J. Hill, brother-in-law of Vergara, who went to Hidalgo today with United States Consul Garrett to investigate the death of the American. They returned to Nuevo Laredo late today.

Mrs. Vergara witnessed the assault on her husband. According to Hill, Vergara had been told by federal soldiers that Captain Rodriguez wanted to settle with him for seven stolen horses and, accompanied by his nephew he crossed the river. The boy ran and hid in the brush when the soldiers knocked his uncle unconscious and with the distracted wife watching from the other bank took him away to Hidalgo. Mrs. Vergara visited her husband in jail the following day and dressed his wounds, Hill said. On Saturday he was taken from prison, supposed to be transferred to Pedras Negras. Later the body was seen hanging from a tree.

Consul Garrett tonight said he was convinced by the federal's attitude that it would have been dangerous for him to search for the body in the cemetery. He told Captain Rodriguez he would secure orders for the removal of the body.

#### BIRTHDAY SURPRISE.

Mrs. Annie Austin of Franklin was tendered a very pleasant surprise at her home Wednesday evening by a number of relatives and friends, who came in about 7:30 to help her celebrate the 52d anniversary of her birth, which was Thursday. The hours were very pleasant and the party a social way, and at an appropriate hour refreshments of sandwiches, pickles, salad and coffee, brought along by the visitors were served.

Those present were Mr. and Mrs. B. W. Anderson and daughter, Maude, C. E. Beerup and family, C. L. Beerup and family, Mr. and Mrs. A. J. Beerup and little daughter, Mr. and Mrs. G. J. Dowell, Mr. and Mrs. J. M. Elder, Mr. and Mrs. J. M. Hart and son, Eugene, Mr. and Mrs. W. Nuttall and daughter, Eleanor, Mrs. Ollie Mayfield, Mr. and Mrs. F. Patterson, Mr. and Mrs. Frank Reagel, Miss Lola Rogers of Waverly, John Votemier and family, Mr. and Mrs. C. J. Whitlock, Mr. and Mrs. Oyer Wright and daughter, Anna, Fred Burch and family, J. D. Yeager, Misses Mary Wright, Belle Mansfield, Martha Anderson, Marie, Lola and Althea Austin.

#### STORE SNOW FOR FUTURE USE.

No one can charge boys at the school for the deaf with being lacking in foresight. As witness to this fact, there are great piles of snow on the front lawn at the school, which the boys have placed there for use after the snow on the playground has melted away beneath the sun's rays. The boys have for the greater part of the time during the past three weeks had a coasting place at the north side of the building and slide down State street to Sandusky. To improve the coasting, water is poured on the course from time to time and freezes over night. Residents in that locality take a positive pleasure in watching the sport and yesterday were greatly interested in seeing the preparations to prolong the coasting by piling snow for future use.

## SHERMAN LAW ADEQUATE TO REACH PRIVATE MONOPOLY

**Former Attorney General Addresses  
Academy of Political and Social  
Science.**

Philadelphia, Feb. 26.—George W.ickersham, former attorney general of the United States delivered an address here tonight before the American Academy of Political and Social Science. His subject was "The Relation of the Federal Government to Industrial Combinations."

"The Sherman law is adequate to reach any private monopoly without further legislative aid," he said. "Under it every one of the great trusts has been dissolved or is now defendant in a government suit."

"Distinction should be made between corporations which are nothing but devices to hold stocks of other corporations and the ownership by one corporation of stock in another made necessary by conflicting provisions of the state laws."

"The bills pending in congress don't discriminate between normal process of ordinary business co-operation and abuses of such processes. Constructive legislation should discriminate between the past and the future."

"Some properly constituted administrative body should be created with power to readjust existing combinations so as to create normal business conditions."

## DECLARES MURPHY DID NOT GIVE BACK CAMPAIGN CONTRIBUTION

**Deposed Governor of New York As-  
serts Tammany Leader Did Return  
Late A. N. Brady's Contribution.**

New York, Feb. 25.—Charles F. Murphy, leader of Tammany Hall did not give back the \$25,000 campaign contribution of the late Anthony N. Brady in 1912, as Murphy said he did, according to the testimony today of William Sulzer, deposed governor of New York. Sulzer, a witness for the second time at the John Doe inquiry into political graft, testified that Murphy had told him he turned the \$25,000 over to the Democratic state committee. He added that Murphy also said he had "fixed it" so that he would be reported in committee's list of campaign contribution under the name of a dummy. It is the \$25,000 which Sulzer says was first offered him and which he refused to accept.

Murphy in a recent public statement said he had given the money back to Brady. He probably will be called in the near future to tell his story under oath.

## TO INVESTIGATE DOINGS OF SELF STYLED SOUTH AFRICAN CHIEFTAN

**Negro Said to Have Promised Okla-  
homan Wealth in Colony He Pro-  
poses to Establish.**

New York, Feb. 26.—United States District Attorney Marshall, referred today for investigation to one of his assistants, the doings of Alfred Charles Sam of Oklahoma, self-styled chief of a negro tribe of the Gold Coast, Africa, and owner of the former Munson Liner Curlyba, now in this port with forty Oklahoma negroes whom he is said to have promised wealth and equal opportunity in a colony he is to establish for them.

This action was taken in response to representations to the federal officers here made by Sir Courtenay Bennett, British consul general, who had investigated Sam's operations and expressed the belief that something ought to be done to prevent the proposed colonization of negroes in a district lacking available lands for the purpose. None of the negroes aboard the Curlyba, however, it is said, has so far made complaint that Sam had duped them.

According to the federal authorities nothing has been developed so far to indicate that the mails had been used in the promotion of the scheme, the only way, it is said, in which the government could acquire jurisdiction.

## THREE ILLINOIS BANKS ARE CHARTERED BY STATE AUDITOR

SPRINGFIELD, Ill., Feb. 26.—Three banks were chartered today by State Auditor Brady as follows: Crawford State Bank, Chicago, capital, \$200,000; incorporators, Louis J. Krejci, Charles F. Stein, James J. Sup.

Commercial Trust and Savings bank, Joliet; capital \$100,000; Everett J. Murphy, John T. Clyne, Carl Osterle, Herman C. L. Ströhl, T. H. Oerlach.

Farmers' Bank of Mendon, capital \$25,000, W. B. Quigg, H. K. Francis, A. H. Tripp, J. W. Bellow.

#### TOURNAMENT WINDOW.

Fred E. Darr, who is employed by the H. L. and B. W. Smith hardware company has fixed up a unique window for tournament week. It is decorated in the high school colors, white and red. It has pictures of the J. H. S. track team of 1912, basketball and football teams of 1913, also cup won last year in the district meet by Jacksonville, also pictures of the Farmington, Waverly and Arenzville teams. There is also a Wright & Ditson basketball one of the official balls being used at the tournament. The score board is also a feature and Mr. Darr has received a number of compliments on his work.

#### BEGIN INVESTIGATION.

St. Louis, Feb. 26.—The grand jury today began an investigation into municipal graft in the recently proposed scheme to increase tax rates to provide money for the completion of the free bridge.

## RALPH DePALMA WINS VANDERBILT CUP RACE

### BEATS OLDFIELD OVER SANTA MONICA COURSE BY NARROW MARGIN

**Winner Averages 75.6 Miles an  
Hour For the 294 Miles—Only  
Five of the Sixteen Cars Entered  
For the Grind Finish Race—W.  
H. Carlson Finishes Third.**

Santa Monica, Cal., Feb. 26.—Ralph DePalma, who won the Vanderbilt cup race in Milwaukee in 1912, duplicated that performance by winning the Vanderbilt cup race of 1914 over the Santa Monica course today. He beat Barney Oldfield by a narrow margin after a desperate speed battle over more than 100 miles, during which but a few seconds separated the two drivers.

DePalma's time was 3:53:41 for the 294.035 miles, or an average of 75.6 miles an hour, nearly three miles less than the course record.

Oldfield was second, Carlson third and Cooper, fourth. Sixteen cars entered the race and only five finished, but from the eighteenth lap to the finish it was a contest solely between DePalma and Oldfield. DePalma won because he did not have to stop once in all the thirty-five laps of the eight-mile course. Oldfield forfeited what chance he had when he was compelled to stop and change a wheel in the thirty-fourth lap and lost nearly a minute.

The other drivers who remained in the race were W. H. Carlson of San Diego, Earl Cooper, who started a favorite and George Joerimann and they finished in the order named. DePalma's average speed of 75.6 miles per hour was slower by three miles per hour than the course record set by Teddy Tetzlaff, when he won a Santa Monica road race, but it was faster than the Vanderbilt cup record of 74.07 miles made by Mulford at Savannah in 1911 and faster than the speed DePalma himself made when he won the cup race at Milwaukee in 1912.

There was but one accident during the race. Edwin Pullen, who made one of the fastest laps of the day—85 miles per hour—and was leading in the fourteenth lap, took a turn at terrific speed and crashed into an iron barricade, which protected a throng of spectators. The car was wrecked, but both Pullen and his mechanic emerged unhurt.

Most of the cars forced out of the race today will be in shape to take their places Saturday in the Grand prize race, which will cover a distance of 403.248 miles. DePalma's prize today amounted to \$3,000. Oldfield won \$2,000.

## CONDITION DEMANDS NEW DEMOCRATIC PARTY POLICY

**Forced to Abandon Traditional Op-  
position to Federal Control and  
Centralization of Power in Wash-  
ington.**

Philadelphia, Feb. 26.—The Democratic party is finding that it must abandon its traditional opposition to federal control and centralization of power at Washington according to United States Senator Henry F. Hollis of New Hampshire, who discussed the relation of federal government to "industrial combinations" before the American academy of political and social science here tonight.

"For one hundred years and more the Democratic party has opposed strong federal control and centralization of power at Washington," he said. "It has favored a strict construction of the constitution and has clung tenaciously to the doctrine of state rights."

"And yet we find a Democratic president calling upon congress to suppress monopoly, to prohibit interlocking directorates, and we see a Democratic congress busily engaged in the work of drafting bills along the lines suggested by a Democratic successor of Jefferson, Jackson and Cleveland."

"I do not hesitate to say that conditions have so changed in our nation that the Democratic party in order to fulfill its mission as the protector of the masses, must logically inaugurate a new policy, not snarling from its plain duty, but readjusting its secondary positions so as best to advance its primary object."

## CORONER'S JURY RECOMMENDS HOLDING PETRAS TO GRAND JURY

AURORA, Ills., Feb. 26.—The coroner's jury here today recommended that Anthony Petras be held in \$10,000 to await the action of the Kane county grand jury in its investigation of the murder of Theresa Hollander. The verdict did not charge Petras with the crime.

"From the fact that Petras had refused to testify before us," the verdict read, "and because of the evidence we have heard, we recommend that the said Anthony Petras be held for the Kane county grand jury." Petras' lawyer said bond would be furnished before Saturday.

#### WRITER IS RECOVERING.

San Francisco, Cal., Feb. 26.—W. N. Naughton, the dean of sporting writers on the Pacific Coast, was stricken with acute indigestion today. Mr. Naughton improved steadily throughout the day and his physicians were so encouraged that tonight they predicted his recovery.

## FEAR OF FEDERAL LEAGUE RAIDS DRIVE CAPITALISTS FROM FIELD

**No New Offers Have Been Made Taft  
For His Club Stock—Ground  
Lease Is Another Question in  
Doubt.**

Chicago, Feb. 26.—Fear of the Federal League's raids on ball players and doubt as to the stability of the reserve rule and of the players' contract itself have combined with the question of ground lease to drive from the field the Chicagoans who wanted to purchase control of the Cubs.

The Behan syndicate, whose offer of \$750,000 for Charles J. Taft's controlling interest was accepted by conditions he would not accept, withdrew today. The other while not formally out of the market, gathered from the refusal of the Behan bid that Mr. Taft was not prepared to guarantee the dissolution of the Federal or alliance with them, nor grant the desired long lease on the Cub field of which he is said to be principal owner.

Cincinnati reports said today Mr. Taft had received a score of inquiries concerning the price of his stock and asking whether it was for sale. No new offers have been made public here.

#### White Sox Begin Work-out.

Paso Robles, Cal., Feb. 26.—The Chicago White Sox, who arrived here travel worn and dust laden last night after one of the most tiresome and adventurous trips ever undertaken by a major league baseball team on a spring training jaunt began their workout today under "Kid" Gleason, acting manager in the absence of Jimmy Callahan.

The training squad was joined here by Ed Walsh, "Red" Kuhn, "Ping" Bodie, Jack Fournier and "Red" Russell, who increased the number of players to thirty one, while with officials, trainers and sporting writers the party numbered more than forty.

Billy Sullivan, Hal Chase and six players on the world tour of the New York Giants and the White Sox will join the club here later. The report that Chase was a "holdout" was denied today.

The Sox were on the road six days and nights and had many traveling dangers thrust on them, because of the recent floods in Southern California.

## UNABLE TO REACH AGREEMENT, CONFERENCE ADJOURNS SINE DIE

**Action of Operators and Miners  
Does Not Necessarily Mean a  
Strike as Five Weeks Remain For  
Side to Get Together.**

Philadelphia, Feb. 26.—Unable to reach an agreement on a new wage scale to take the place of the present one which expires March 31st, the joint conference of operators and miners from Western Pennsylvania, Ohio, Indiana and Illinois adjourned sine die today.

It was announced that this action does not necessarily mean a strike as it was pointed out that five weeks remain for the two sides to get together in another effort to reach an agreement. It was predicted that another conference would be held before April 1st, in a city within "the central competitive field."

After the joint conference adjourned, the miners held a meeting at which John P. White, international president of the United Mine Workers of America was instructed to call together the policy committee of the organization whenever he deems it necessary.

## EUGENICS IS THE "GREATEST SNARE OF MODERN THOUGHT"

**Professor of University of Califor-  
nia Declares Movement Is "Joke."**

Berkeley, Cal., Feb. 26.—Branding eugenics as "the greatest snare of modern thought," Prof. A. L. Kroeber of the anthropology department of the university of California declared in a lecture today that the movement was a "joke."

According to Prof. Kroeber, "individual endeavor and high national ideals are the only things that will make better human beings."

"Heredit" continued Prof. Kroeber, "is the most misunderstood subject under discussion today. Ninety-nine per cent of what is commonly attributed to heredity has nothing whatever to do with it and is merely a matter of national environments."

"Eugenics appeal to men who are morally long haired and to the women who are intellectually short haired."

"It is easier to talk of breeding improved human beings than to begin by improving oneself and training one's children. The future of the human race can be enhanced only through character building by individuals and courageous adherence to ideals by nations."

#### ITALIANS PLACED ON TRIAL.

Ottawa, Ill., Feb. 26.—George Glodina and Joe Scinitto, who held up the pay wagon of the Black Hollow Mine, May 29th, 1913, were placed on trial today charged with killing Ben Dierks and Elmer West, guards.

#### WILL NOT BE CANDIDATE.

Chicago, Feb. 26.—Governor Edward P. Dunne returned today from Washington and announced that he would not be a candidate for the United States senate at the next election. He left tonight for Springfield.

#### FORMER EDITOR DIES.

Duluth, Minn., Feb. 26.—Guy Finch, former northwest editor of the Duluth News-Tribune died at his home at Fond du Lac, Minn., near Duluth today. Mr. Finch was born in Des Moines, Iowa, May 22nd, 1837.

## EXODUS OF UNIVERSITY STUDENTS CONTINUES

### FEAR OF EPIDEMIC AT CHAMPAIGN HAS, HOWEVER, ACATED

**Two New Cases of Scarlet Fever De-  
velop Thursday—University Makes  
No Attempt to Enforce Attendance  
and Little Studying is Being Done.**

Champaign, Ills., Feb. 26.—Two more cases of scarlet fever developed at the University of Illinois today. They were not of the malignant form. University authorities predicted that the students who left for their homes will be back Monday.

James W. Thomas, a freshman student from Anna, and Miss Clara Ricketts, an assistant in the university library, are the new victims.

Although fear of an epidemic has abated the exodus of state university students continued. Many telegrams from anxious parents asking their sons and daughters to come home, were received during the day.

Students in the emergency hospital cheered Dean Clark through a window when he made his daily round. Members of the Pi Beta Pi sorority voluntarily quarantined themselves. Other organizations followed their example. The university is making no attempt to force attendance and little studying is being done.

Dr. J. M. Finch, local health officer said the situation is well in hand and that none of the twenty patients is seriously ill.

#### The Athletic Events Canceled.

Chicago, Feb. 26.—The presence of scarlet fever in the University of Illinois was the cause tonight of cancelling three athletic events scheduled for here. A basketball game with the University of Chicago tomorrow night, basketball with Northwestern Saturday night and a track meet with Chicago Saturday were cancelled. Chicago will take part in the Central A. A. U., indoor track meet Saturday.

#### Will Play Twenty Games.

Champaign, Ills., Feb. 26.—The University of Illinois basketball team will play twenty games the coming season, according to the schedule which was announced today. Twelve of the games will be with conference nine, five others will be played in the south, two in this state with Texas, and one with the Keio, Japanese team.

## C. P. TRAIN IS DERAILED ON ITS FIRST TRIP SINCE SUNDAY

**Accident Occurs Thursday Morning  
at Place Where Passenger Was  
Snowbound.**

Thursday morning the Chicago, Peoria & St. Louis railroad company's local passenger running between Jacksonville and Havana, was derailed at the point where the train was fast in the snow from Sunday night until Wednesday afternoon. After a five hour delay the train was able to proceed.

The wreck north of the city was cleared away in time for the passenger to leave this city Thursday morning at 11:30 o'clock. At the point where the train was snowbound, about 3 inches of snow had frozen to the rails, and this caused the derailment of the trucks of the tender. Nothing could be done to put the trucks on the track until the train was pulled back from the engine, so as to give the men room to work. A train was sent from this city and arrived about five hours after the accident. Only a few minutes were then required to right the train, and it proceeded on its first trip to Havana since Sunday. The passenger arrived in this city on the return trip Thursday night about 8:50 o'clock.

## ILLINOIS COLLEGE WILL CLASH WITH WESLEYAN

**Fast Game Expected Tonight in Col-  
lege Gymnasium When Fives Meet  
—Wesleyan Defeated Lincoln Last  
Night 32 to 23.**

Illinois college will, in a great measure tonight, determine what part she will play in the state tournament when she meets Wesleyan tonight at 8 o'clock. Wesleyan has won nearly every game this season and last night defeated Lincoln college 32 to 23. Young for Wesleyan made 8 field baskets, while Elliott made five field baskets and two free throws.

Coach Harmon put his men through their final scrimmage last night and he is going to give Wesleyan the best he has. The I. C. men are smarting under defeat received a few days ago at the hands of Millikin and expects to take their vengeance out on Wesleyan tonight. This will be the last college basketball game here this season.

Beloit, Wis., Feb. 26.—Beloit college won the championship of the Little Five conference tonight by defeating Monmouth college 39 to 12.

#### STRIKERS CUT OFF

Paris, Feb. 26.—Railroad traffic between Lisbon and the Spanish frontier has been completely cut off by the striking railway men who belong to the revolutionary section of the Socialist party. According to passengers who arrived here from Lisbon today after a journey of 102 hours instead of the usual 32, the tracks have been destroyed in many places, bridges have been blown up and telegraph and telephone communication has been interrupted throughout Portugal.

## ENGLISH RULER EXPERIENCES THRILLS AS BASEBALL FAN

**King George Sees Extra Inning Game  
in London Between Chicago White  
Sox and New York Giants.**

London, Feb. 26.—The King of England as a baseball "fan" today experienced the thrill that comes as the result of a spectacular hit which breaks up an extra inning game.

Seated within a wire-enclosed box behind the home plate of a diamond laid out on the Chelsea football field, His Majesty saw in the second half of the eleven inning, Tommy Daley of the Chicago White Sox drive a fast ball delivered by Faber of the New York Giants far across the field into the topmost bleachers for a home run and win the game for Chicago five to four. The King clapped his hands vigorously as Daley trotted around the bases.

King George who was accompanied by Walter Hines Page, the ambassador watched with great interest and seeming understanding of the game, the closely contested eleven innings, applauding heartily brilliant field and battery players. This was especially noticed when, about mid-way of the game, Faber, pitching for the Giants, got himself into a hole having three men on bases and only one man out. Steadying himself the Giant twirler retired the White Sox without permitting a man to cross the plate. His Majesty applauded Faber as enthusiastically as did any of the American fans.

Tonight the American actors now playing in London entertained the baseball men at a supper which was followed by a variety show.

## CHANGE OF SUPERINTENDENTS AT COUNTY HOME SOON TO BE MADE

**George Lewis and Family Will Move  
to Home Near Des Moines—Mr.  
Todd Assumes Duties.**

W. F. Todd, recently chosen superintendent of the Morgan county home has tendered his resignation to Sheriff W. B. Rogers as a deputy in that office. Mr. Todd will enter upon his new duties March 1st succeeding George Lewis, who will remain at the home until Saturday. Mr. Todd has already moved part of his household goods to the farm and Mr. Lewis has brought part of his to Jacksonville.

Within a few days Mr. Lewis and family will move to Des Moines, Ia., their expectation being to leave Wednesday or Thursday. Mr. Lewis has purchased a farm of 100 acres within half a mile of Des Moines and he and his son Bert Lewis will operate it. The first year general farming will be carried on and later they may devote some attention to dairying.

Mr. Todd has served acceptably as deputy sheriff for a little more than three years and is considered as well qualified for his new position. He has announced the following as assistants most of whom have been in the service of the home for some time, head farmer, Henry Wax; second farmer, John Alvis; gardener, William Whalen; Cooks, Clinton Stout, and Miss Sarah Bollyard; attendants, Mrs. Briggs and Orle Horton.

Mr. Lewis made a good record during his superintendentcy at the home and he and the members of his family will take the good wishes of a large company of friends with them to their new home in Iowa. His son Bert O. Lewis has been farm foreman for the past four years.

## HURIS GLASS BELL AT LUNCH ROOM MAN

**Thomas Donahue is Arrested on  
Charge of Assault Thursday Af-  
ternoon.**

Thomas Donahue was arrested Thursday afternoon by Officer Eads on a charge of assault and battery. The complaint was made by Earl Walker, who has charge of the Wash-lash lunch room at night.

Donahue, in company with Walt DeFreitas and Elmer Cannon, went to the lunch room about 2 or 3 o'clock Thursday morning and after eating a lunch Donahue asked for his change, but the man in charge stated that Donahue had not given him any money. In the argument which followed Donahue picked up a large glass bell, used to cover sandwiches, and threw it at Walker, but the glass struck the wall and knocked off some plastering. A piece of glass struck Walker on the side of the head. Walker then secured a knife sharpening steel from under the counter, and jumping over the counter struck Donahue on the head two or three times. Walker chased the offender outside and the steel slipped out of his hand and he fell. When he was down Donahue jumped on him and struck him once in the face. Donahue then ran.

It is said that Donahue had just returned from New Berlin and was making himself generally obnoxious about the station when Night Operator Marshall called the police. Capt. Trahey went to the station and when he went to Capps Factory he could see two men running at a fast gait on Fayette street.

When arrested Thursday afternoon Donahue was wearing a bandage on his head, which covered his injuries. No complaint was made against his companions.

#### BAR NON-RESIDENT AGENTS.

Jefferson City, Mo., Feb. 26.—Non-resident agents of five insurance companies can no longer write policies on property in Missouri according to a ruling announced today by Charles E. Revelle, state superintendent of insurance.

The ruling resulted from complaints filed with the state insurance department against the activity of agents in Illinois in placing insurance about Missouri and especially in Kansas City.

## PUBLICITY AROUSES MEMBERS OF SENATE

### SEEK SOURCE OF INFORMATION RE- GARDING EXECUTIVE SESSIONS

**During Discussion of Resolution In-  
troduced by Sen. Kern, Senators  
Are Accused of Violating Their  
Oaths in Revealing Executive Af-  
fairs—Other Washington News.**

Washington, Feb. 26.—Publicity given to recent executive proceedings in the senate, it developed today, has so aroused some members of that body that a resolution has been introduced and referred to the committee on rules, directing the committee on foreign relations to conduct an investigation into the sources from which the executive information is obtained.

Publication of incidents in the debate on the general arbitration treaties last week precipitated discussion which gave rise to the resolution which was introduced in a subsequent executive session by Senator Kern of Indiana. During discussion of the resolution, senators were accused of violating their oaths in revealing executive affairs and one senator proposed that a law be enacted which would make it a penal offense for anyone to publish facts relating to matters held secret under the senate rules.

The suggestion did not pass the stage of discussion. The resolution offered by Senator Kern was referred to the rules committee which has not acted upon it up to this time.

**Debate Anti-Trust Program.**

Efforts of senate and house committees were turned today toward perfecting as soon as possible the administration's anti-trust legislative program. The senate committee on "inter-state commerce held its first hearing on the proposed bill to create an inter-state trade commission, and amendments to limit the scope of that commission and to make it a purely advisory and investigating body were submitted by Senator Newlands, chairman of the committee.

**Sugar Growers Lose.**

Louisian sugar growers lost the second round of their fight to keep up the duty on sugar today when Attorney General McReynolds handed down an opinion that Cuban sugar is entitled to enter the United States at all times during the life of the present reciprocity treaty on payment of a duty of twenty percent less than other sugars.

**Unable to Reach Agreement.**

Conferees of the senate and house on points at issue in the Alaskan railroad bill tried vainly today to reach an agreement as to the method of financing the proposed government enterprise. Although it had been understood that the senate members of the committee would accept the action of the house in eliminating from the bill the provision for a \$40,000,000 bond issue they were inclined today to insist upon retaining this feature.

## FORMER TEACHER AT BROWN'S PASSES AWAY IN SPRINGFIELD

**Herbert B. Henkel, President of  
Springfield Business College, Dies  
of Apoplexy Thursday Morning.**

Herbert B. Henkel, head of the Springfield Business college and a former teacher in Brown Business college, this city, passed away Thursday morning at his home in the capital city as a result of a stroke of apoplexy suffered at 7 o'clock the evening before. He was 61 years old. Mr. Henkel had just fully recovered from the effect of a similar attack suffered two years ago and was to all appearance in good health.

He had been connected with the Springfield Business college for thirty years and was one of the best known educators in Illinois. In the early years Mr. Henkel was associated with G. W. Brown in the Jacksonville Business college as teacher of book-keeping and penmanship. He has been a close friend of Mr. Brown in the year succeeding and, according to his friend's assertion, was one of the mainstays of the early Brown's Business college organization.

Mr. Henkel came to Illinois from Ohio, where he was born and reared. He received his education in Cleveland and Lebanon, O., and attended also other institutions in the east. He was married in 1881 to Miss Elizabeth Freeman of this city. He is survived by his wife and two sons: Myron F. Henkel of Indianapolis, Ind., and Dr. Herbert B. Henkel of Springfield.

### SOCIAL EVENTS.

The birthday social of the Ladies' Aid society of Centenary M. E. church was held Thursday afternoon at the home of Mrs. J. W. Priest. Part of the program consisted of vocal numbers and readings by Misses Irwin and Coultas, students of the Woman's college and Miss Alta Green who gave two piano solos. Those who assisted Mrs. Priest were Mrs. Mary Kershaw, Mrs. Annie Brown, Mrs. Walter Rabbjohn, Miss Mercy Jackson, Mrs. Stevenson and Mrs. Harrison.

The young ladies of the Academia society, an organization among the girls of the Woman's college preparatory department, took advantage of the sleighing yesterday and ended their pleasant drive of several hours with a lunch at the Batz cafe. The party was chaperoned by Miss Effie Berger, Miss Bernice Ireland and Miss Louise Robinson, of the I. W. C. faculty.

Miss Rose Aguar recently entertained the members of the Majeska club at her home on North Prairie street. Excellent music was supplied by Miss Celme Vieira and fine refreshments were served by the hostess. All present had a highly enjoyable time.

Invitations have been issued by Mrs. L. W. Chambers and Miss Marie Chambers for reception to be given at their home Tuesday, March 3, to meet Mrs. Walter S. Kennedy. The hours will be from 3 till 6.

Public sale of W. H. Galloway postponed to Monday, March 2nd.

### OPENING ALEXANDER ROADS.

A large number of men are at work opening up the roads running north and south into Alexander. The snow is so deep that a great deal of the work has to be done with shovels, and some of the drifts encountered were said to be 10 feet high. In places the snow is packed so hard that horses have walked over hedge fences on it.

## JACKSONVILLE DRAWS MT. STERLING

LOCALS WILL CLASH WITH  
BROWN COUNTY LADS.

First Day's Games of District Tournament Were Evenly Matched and Quintets Fight Hard For Honors—Large Crowds Necessitate More Seats—Eight Teams Eliminated in First Round.

### RESULTS YESTERDAY.

Bluffs, 37; Manchester, 22.  
Ipava, 24; Farmington, 21.  
Granite City, 34; Edwardsville, 26.  
Jacksonville, 27; Alton, 23.  
Springfield, 30; Petersburg, 18.  
Mt. Sterling, 45; Waverly, 21.  
Canton, 32; Litchfield, 10.  
Quincy, 35; Griggsville, 32.  
Today's Games.  
8 a. m.—Pittsfield vs. Virginia.  
9 a. m.—Jacksonville vs. Mt. Sterling.  
10 a. m.—Ipava vs. Canton.  
11 a. m.—Bluffs vs. Granite City.  
2 p. m.—Springfield vs. winner of Pittsfield-Virginia game.

From the standpoint of enthusiasm, attendance, well matched teams and closely contested games, the first day's program of the western district tournament of the state high school association which closed last night, easily outranks any similar tournament ever held in Jacksonville and it is doubtful if any meet in the whole state will equal it when the curtain is rung down Saturday night and the championship honors announced.

Evidence of the ample preparations for the local management had made for the tournament was seen on every side yesterday and everything was dispatched in splendid order. While some little changes had to be made of the times when the games should be played, in general every team seemed to be well satisfied.

It would have been a difficult matter for any one to have taken the game between Petersburg and Springfield was too much one sided to be interesting to the fans. Springfield played mostly a defensive game in the last half and used some of their second team men. Schneider, the star player of the Springfield squad received a slight injury and left the game before it closed. The final score was 39 to 18.

Petersburg 18; Springfield 39.

Schneider, the star player of the Springfield squad received a slight injury and left the game before it closed. The final score was 39 to 18.

Arrangements of Games.  
According to the arrangements all the losers of the first day's round were eliminated. They included Manchester, Farmington, Edwardsville, Alton, Petersburg, Waverly, Litchfield and Griggsville. In the drawing which was held last night Pittsfield plays Virginia Jacksonville Mt. Sterling, Ipava Canton and Bluffs will try their strength against the strong Granite City team. All these games will be played in the morning. At 2 o'clock in the afternoon Springfield will play the winner of the Pittsfield-Virginia game.

After the 2 o'clock game there will be another drawing for positions and opponents. This drawing will be between the four losers of all games played up to 3 o'clock this afternoon, which will include the loser of the Springfield-Pittsfield Virginia game.

Quincy Was Lucky.  
This will make three other games to be played in the afternoon, one at 3 o'clock, one at 4 o'clock and another at 5 o'clock, leaving one team victor of the four games to play Quincy the first game after supper at 7 o'clock. Quincy was lucky in the drawing last night getting number nine so they will not have to play at all this afternoon.

After supper, as just mentioned Quincy, and the afternoon winner will play. Before the game starts at 8 o'clock there will be another drawing for places among the five remaining victor teams. Four teams out of five will have to play after supper. It might be that luck would still follow Quincy and she might have to play only one game during the evening. If luck is against her she will have to play two games in the same evening.

Will Build More Seats.  
The attendance at the games during the entire day was most satisfactory and in fact it exceeded the expectation of the management. Last night the hall was not large enough to seat all the fans and this morning students of the Manual training department under the supervision of Miss Brown will be at the hall at six o'clock and will build enough seats to accommodate 150 more people. The order yesterday was unusually good and the various teams expressed themselves well pleased with everything.

Collins To Dine Visitors.  
The young ladies of the Domestic Science department served lunch to a goodly number and expect to do a still larger business today. Supt. Collins will entertain at lunch today at 12 o'clock at the hall all the principals and coaches who are here, the domestic science girls preparing the lunch. The high school band kept the crowd entertained between games and halves by spirited playing. All the teams are keyed to the

highest pitch and some of the fastest games yet will be seen today.

Bluffs 37; Manchester 22.  
The first game scheduled for the tournament was between Bluffs and Manchester, the former winning by the score of 37 to 22. The first half of the game was close, 17 to 20, in favor of Bluffs. The Manchester fellows seemed to weaken in the last half and Bluffs ran away with them, making 17 points to their opponents 5.

One of the closest games of the day and a hard fought one was between Ipava and Farmington, the former winning by the score of 24 to 21. The teams were not billed to play in the morning but as some of the other teams did not arrive they changed their time. The men claimed they had traveled most of the night and were not in the pink of condition. The big crowd did not realize this, however, for the five fought it out to the last ditch. At the end of the first half the score was 18 to 6 in favor of Ipava. Farmington in the second half took a big brace and barely missed winning the game.

Jacksonville 27; Alton 23.

The greater interest for local fans centered in the game between Jacksonville and Alton. The contest was to have been played in the morning, but on account of a change in the schedule the contest was pulled off in the afternoon. With the J. H. S. men in a crippled condition, with Smith in bad shape and Boxell out of the game entirely, Alton had good chances to cop the honors. The fight in the first half was fierce, ending in a score of 14 to 13 in favor of Jacksonville. The Alton men whipped up in the second half and the local five put up one of the pluckiest games witnessed thus far in the tournament. Three minutes before the contest ended Alton took on speed and was within two points of tying the score when Jacksonville took on new life and nosed out a victory.

## DEFENDS INTEGRITY OF U. S. CONSTITUTION

JUDGE J. OTIS HUMPHREY SPEAKS TO MORGAN COUNTY BAR.

Asserts Necessity of Fundamental Law in Address on "The Supreme Court of the United States"—Association Elects J. J. Reeve President for Ensuing Year.

The integrity of the constitution and the necessity for a basis of fundamental law from which there is no appeal was the theme of Hon. J. Otis Humphrey of Springfield, judge of the United States district court, in an address to the Morgan County Bar association in their annual meeting Thursday evening at the Colonial Inn. The title of Judge Humphrey's address was "The Supreme Court of the United States." John J. Reeve was elected president of the association to succeed the late Judge Charles A. Barnes and J. P. Lippincott was chosen to succeed Mr. Reeve as vice president. H. W. English was elected secretary and John H. Butler treasurer. John J. Reeve presided and introduced Judge Humphrey as the speaker of the evening. There were forty present at the handsomely served dinner and the reception tendered Judge Humphrey by the members of the Morgan County Bar was indeed a hearty one. The judge was a former resident of the county and began his remarks by a reference to his birth and early boyhood on the A. A. Curry place, south east of the city. His parents moved to Sangamon county when he was four years old.

"If men were angels," said Judge Humphrey, in beginning his address, "they would need no laws. If men were ruled by angels they would need no law. But as men are governed by men, there must be a fundamental law from which there is no appeal. The Constitution is this basis." Judge Humphrey expressed himself forcibly on the new theories of judicial responsibility: "To the new doctrine that a judge shall be responsible to his constituents, I reply, A judge has no constituents."

Judge Humphrey said: "The Constitution of the United States is a document of such remarkable wisdom that Mr. Gladstone has referred to it as 'the most wonderful work ever struck off at a given time by the brain and purpose of man.'"

Indeed it is conceded by scholars who have observed our progress for more than a century that our constitution is the greatest constructive document ever given to the world.

It is equally conceded that the chief feature of that immortal work is the judicial department created therein. Indeed the one subject on which the minds of the framers met in practical unanimity was the independence of the judiciary.

Webster called the judiciary "the protecting power of the constitution."

DeToqueville said: "A more imposing judicial power was never constituted by any people."

Lord Brougham said: "The power of the judiciary to prevent either the state legislature or congress from overstepping the limits of the constitution, is the very greatest refinement of social policy, to which any state of circumstances has ever given rise or to which any age has ever given birth."

Washington referred to it as "the chief pillar on which our government must rest."

Clay: "The great conservative element of government."

Mr. Blaney: "The august representative of the wisdom and justice and conscience of the people—the great moral substitute for force in controversies between the people, the states and the union."

Mr. Bryce's Estimate.

Mr. Bryce, in his American Commonwealth, in speaking of our Supreme Court says:

"The Supreme Court is the living voice of the constitution—that is, of the will of the people expressed in the fundamental law they have enacted. It is, therefore, as some one has said, the conscience of the people, who have resolved to restrain themselves from hasty or unjust action by placing their representatives under the restriction of a permanent law. It is guarantee of the minority who, when threatened by the impatient vehemence of a majority can appeal to this permanent law, finding the interpreter and enforcer thereof in a court set high above the assaults of faction."

To discharge these momentous functions the court must be stable even as the constitution is stable. Its spirit and tone must be that of the people at their best moments. It must resist them the more firmly the more vehement they are. Intrenched behind impregnable ramparts, it must be able to defy at once the open attacks of the other departments of the government and the more dangerous because impalpable, seductions of popular sentiment."

Now the constitution is written in general terms, declaring in simple language the rights of the people and the powers of government. It has remained for the people themselves during the years of our existence as a representative government, by presenting their cases to and securing judgment from the Supreme Court to clothe the constitution with flesh and blood and thus prove it to be what the fathers knew it to be—a practical human document.

### GRACE CHAPEL.

Mr. and Mrs. J. O. Kennedy and daughter, Bertha, visited Friday evening with Mr. and Mrs. Fred Braner and family.

Rev. A. F. Cain was at the chapel Sunday and spent Sunday evening and night with Mr. and Mrs. Elmer Smith.

Mr. and Mrs. Harry Braner visited Thursday afternoon with Mrs. Wiswell and family.

The second quarterly meeting was held at Grace Chapel, Friday afternoon, Feb. 20th, with good attendance, all committees and official members giving good reports.

Quite a number from this vicinity have been attending the revival meetings, which are in progress at Union church.

George Taylor, Elmer Smith and Walter Braner were Arenzville callers Saturday.

Wm. Young from Jacksonville was in this vicinity buying horses Thursday.

One of the worst blizzards and snow storms that has struck this part of the country for some time, began Sunday about noon and lasted until Monday afternoon, causing considerable suffering among the live stock and leaving the roads impassable on account of the drifted snow.

The school at White Oak Grove was dismissed Monday on account of the storm.

Master Vaughn Dawson spent the week-end with his aunt, Mrs. Fred Braner, and family.

Mrs. Otis Holt spent Friday with her mother, Mrs. Hannah Braner.

Tuesday, about noon seven or eight men of this community started with a team and sled and equipped with snow shovels and axes, determined to open some of the roads which have been blocked with snow since Sunday. Leaving Mrs. Hannah Braner's about noon, going west around the block and by using their shovels where convenient, made their way to Arcadia and returning home about 5:30 o'clock, tired and wornout from shoveling snow, but feeling well repaid by the sport they had on the trip.

Those who helped were: Charles and Walter Braner, Geo. Taylor, Elmer Smith, Fred Braner, Oscar Bridgman and Walter Houston.

Wall Mason has been housed up for a few days with the mumps, but is getting along nicely.

YOUNGBLOOD PRAIRIE.

The sale of Harry Hallowell, Tuesday, day well attended and stock brought good prices considering the weather.

Our rural mail carrier is kept in by the deep snow. Some of the drifts are ten to fifteen feet deep and travel is for the time suspended.

Mr. and Mrs. Walter Newby and daughter spent Saturday with Mrs. Newby's parents, Mr. and Mrs. John B. Seymour, of Franklin.

The sale of Leonard Dalton, Thursday, was well attended and nearly everything brought good prices. One match team of horses brought \$407.50 and other things in proportion.

John Tribble and family of Jacksonville spent part of the week in this vicinity with relatives and friends.

G. F. Story bought a crib of corn of Sylvester Seymour of Providence Saturday.

The death of Mrs. Margaret Spires marks the passing of an early settler of Youngblood, where she had yet many friends, though of late years she had lived in Franklin.

The funeral of the little son of Mr. and Mrs. Martin Hart was conducted at the Baptist church of Hart's Prairie Saturday by Rev. Roy March of Drake.

Several changes in residences are to be made soon in this neighborhood. George Seymour moved from the C. E. Rees farm to Nortonville and James Ellington will occupy the place vacated by him. Mrs. P. Shelton will move to the Jesse Jones farm, north of Nortonville and vacated by Virgil Thomas.

MEREDOSIA MAYORALTY CONTEST.

Two tickets have been put forward by the citizens of Meredosia to be voted upon at the primary election, Tuesday, March 10, to select three trustees and a clerk and to fill the unexpired term of Mayor John G. Berger, who resigned recently to go to Texas.

In the contest for mayor, one of the candidates is L. F. Berger, brother of the former head of the village. On the ticket with Mr. Berger are George Hyde, William Hyatt and Charles Hale, for trustees and Oscar W. Wilcox for clerk. The other ticket consists of C. W. McLain, for mayor; A. J. Leslie, George Hyde and H. H. Hamman, trustees and Oscar W. Wilcox for clerk.

We will win?—Show your interest by seeing big game today between Jacksonville and Mt. Sterling.

DeMotte Gates, who has been confined to his home on West Lafayette avenue for a week has developed a case of diphtheria. He said over the phone however yesterday, that he felt far from being seriously sick and hoped to get out of quarantine within two weeks. The diseases in his case is not of malignant form.

We urge you just try milk from the Jacksonville Creamery for a week, then we know that you will be a regular customer.

F. J. Blackburn returned from a trip to his farm in Missouri.

### DEFENDS INTEGRITY OF U. S. CONSTITUTION

(Continued From Page Three.)

Judicial Impartiality.

In 1804, a man of great distinction, an Ex-Vice President was GAL TWO SUPREME COURT brought before the bar of the court upon grave charges, a state trial, involving the question of treason. Every power of the administration was arrayed on the side of the prosecution. The people generally believed the defendant guilty and clamored for his conviction, but the court found that conduct amounting to treason had not been shown within the meaning of the law. The legal history of the world does not contain a more marked example of judicial impartiality.

"Why did you not tell Judge Marshall that the people of America demanded Burr's conviction," was the question put to Wirt after the trial. "Tell him that," Wirt replied. "I would as soon tell Herchell that the people of America insisted that the moon had horns as a reason why he should draw her with horns."

May we not regard this early action of our great court as a perpetual call upon American judges of all succeeding ages to stand for the administration of the law as it is written: to stand impersonal and serene above the gathering clouds of popular opinion, and unmoved by criticism even though it come from those who sit in high places.

When I think of Marshall's action in the Burr case, I regard him as filling that description of the perfect judge which Mr. Choate with the wand of his genius has beautifully expressed:

"He shall know nothing about the parties, everything about the case. He shall do everything for justice, nothing for himself, nothing for his patrons; nothing for his sovereign. If on one side is the executive power and the legislature and the people—the source of his honors, the givers of his daily bread, and on the other side an individual nameless and odious, his eye is to see neither great nor small, attending only to the trepidations of the balance. Give to the community such a judge and I care little who makes the rest of the constitution or what party administers it. It will be a free government."

The Right of Contract.

In 1810, a citizen of Georgia by an act of the state was deprived of a tract of land acquired under a previous act, and the court by a sweeping decision held that any act of a state legislature in violation of a private contract right was void. This was first case applying the doctrine to contracts in which a state was an interested party. Fletcher vs. Peck, 6 Cranch 87.

In 1819, the state of New Hampshire by legislative act, sought to materially change the powers of a college existing under a royal charter granted in 1769. The charter was held to be a contract which the state had no power to impair. Perhaps no more important decision was ever rendered. It has stood as a bulwark against much vicious legislation especially that looking to the repudiation of the rights of creditors.

(Dartmouth College case, 4 Wheat 518.)

In the same year, an act of the State of Maryland brought forth the judicial utterance that a state has no power to destroy a government agency.

(McCulloch vs. Maryland, 4 Wheat, 316.)

In 1824, the State of New York had given to Fulton and Livingston the exclusive right to navigate the waters of that state. This right had been assigned to one Ogden. Afterwards the government issued a license to one Gibbons to run steamboats in the coasting trade. The New York courts enjoined Gibbons and out of this controversy between Gibbons and Ogden grew the doctrine never afterwards disputed that the national jurisdiction extends over all navigable waters within her borders even though they run into the interior states.

The Beginning of Corporation Law.

The State of Massachusetts, having previously granted to a bridge company the right to operate a toll bridge across the Charles River made another grant to the Warren Bridge Company in competition with the first. Mr. Webster appeared for the original company and sought to sustain the monopoly on authority of his Dartmouth College decision—the court, in 1837, held that although the original charter was a contract which could not be impaired, yet in a matter where the use is clothed with an important public interest, such contract will be limited to the rights plainly and specifically included to the end that monopoly may be restricted. Out of the Dartmouth College case as modified by the Charles River Bridge case has largely come the development of American corporation law.

In 1860, the court held in Almey vs. California, that there can be no tariff between the states. To the same effect in 1867 followed the noted case of Cradall vs. Nevada, in which the court by Justice Miller in a strong opinion held that a state law taxing the transportation of passengers through a state was unconstitutional.

In 1866, in an immortal decision by our own Mr. Justice Davis the court held that martial law can never exist where the courts are open and in the unobstructed exercise of their jurisdiction.

In 1868, in Texas vs. White, the opinion of the court contains the most elaborate view in our judicial history as to the nature of our government. It was in this case that the Chief Justice, Mr. Chase, said: "The constitution in all its provisions looks to an indestructible union composed of indestructible states."

### LIQUOR INTERESTS FACE A MIGHTY BATTLE OF BALLOTS

The recent announcement that one of the brewing companies which owns a building on the square and has for years past declined to lease or sell it, has now placed it upon the market, gives emphasis to the belief that the liquor interests have come to the conclusion that Jacksonville is permanently dry.

Judging by the vote at the last election this is certainly true so long as woman suffrage is effective in the state. It is true too that with a decision on the constitutionality of the woman's suffrage law delayed until after the April election the liquor interests all over the state are facing the fight of their lives, what looks like a losing fight in many localities.

Even without the women's votes this year indications are that many more wet districts would be added to the dry columns, but with the aid of the women's votes the "drys" expect to win the most decisive victories this spring that they have ever won.

The liquor forces realize this and in many communities will not make open fights to stem the tide but they will put the bulk of their energies in some of the more important cities which they hope to save.

Petitions for a vote on saloons have been filed in more than twenty five cities and villages which hold their elections on April 21. Last Friday was the latest day for the filing of petitions with city and village clerks in this class of municipalities.

The total number of cities, villages and township in the state which will have the "wet or dry" issue up in April exceeds 325. Most of the elections take place on April 7, the time for filing petitions in these places having expired two weeks ago. About 300 townships vote on the proposition April 7.

Cities and villages which will vote on April 21 include the following: Alton, Edwardsville, Worden, Danville, Athens, Mound City, Mounds, Mendota, Beardstown, Arenzville, Duvernay, Murphysboro, Nashville, Pocahtontas, West Frankfort, Algonquin, Carlyle, Herscher, Reddick, Huxy, Milen.

The "wets" are on the defense, merely trying to hold the territory they already have, while the "drys" have filed petitions throughout what has been considered strong saloon territory. The fate of 4,000 saloons will be decided in the elections of April 7 and 21.

### SOME SPRING WORK

#### THAT IS WORTH WHILE.

The farmer's year is not restricted simply to the growing season. The period between seasons is just as important for it is a time when he should get ready for the work that is to follow. Prof. Leonard Hegnauer of the University of Illinois suggests the following important things that the farmer should be careful to do during the next few weeks. Look over the seed corn which was very carefully selected from the field and stored away for safe keeping. Germination tests, he says, should be made with great care and unless seed corn is strong in vitality it should not be used; before oats sowing time it will be well to take the seed oats which were selected at threshing time and clean them up thoroughly with the fan mills and grader. Also it will be found profitable to treat oats for smut.

Another important item getting ready for spring work is to see that all implements and tools are in good condition. Attention should be given to the matter of sowing seed, particularly if it is to be sown on winter wheat.

The early part of the season is a most important time and no farmer can afford to neglect the opportunity of getting his crops started at the proper moment. To be ready and to do effective work are two very important things in producing good crops.

### COMBINATION ELECTRIC STOVE.

The smallest and most compact cooking outfit is a combination electric set which, consists of an electric stove, a chafing dish, a tea samovar, a coffee percolator, and a nursery outfit.

The six inch electric stove serves for all the devices which are made especially to fit it. This stove, is connected to the ordinary electric light socket by a long flexible cord. When the electricity is snapped on the stove gets hot. This heat is caused by a "resistance grid" concealed within the base of the stove. The passage of electric current through this grid produces the heat.

With this combination stove an entire meal, and a large one at that, can be cooked right on the dining room table. The coffee pot, cooker, stove, etc., all rolled into one. This device can be operated from the lamp socket and consumes no more current than an ordinary incandescent lamp.

### A MORGAN COUNTY PRODUCT

When Judge J. Otis Humphrey, guest of the Morgan County Bar association, last night told his auditors that he is a Morgan county product, the announcement came as a surprise to most of them.

Judge Humphrey was born on what is now the Curry farm near Pisgah and lived there until he was four years of age. Then the family moved to Sangamon county and a few years later the son for a short time was a student of Whipple Academy. While it is true that the years were few that Judge Humphrey spent in this county is also true that he has some dear memories associated with this locality and a long residence in Sangamon has not bereft him of kindly feelings for his boyhood home.

His statement of these facts last night was "news" to the larger number present who though familiar with the splendid achievements of the judge in his riper years knew little about his earlier life. So Morgan county is proud to claim this eminent jurist and to place his name well up in the long list of distinguished men old Morgan has given to the state and nation.

### "THIS IS MY 55TH BIRTHDAY."

Sir Cecil Arthur Spring-Rice

Sir Cecil Arthur Spring-Rice, the British ambassador at Washington, was born in February 27, 1859, and was educated at Eton and Balliol, Oxford. He became a clerk first in the British war office and then in the foreign office, and for a time was assistant secretary to Earl Granville and also an assistant to Earl Roseberry. After serving as at-tache of the British legations in Brussels and Tokio, he was transferred to Washington in 1893. He was already acquainted with Washington, having served there some years before as acting third secretary of the legation. He was charge d'affaires at Teheran in 1900 and minister to Persia in 1906-08. When appointed a year or so ago to succeed Ambassador Bryce at Washington he was serving as minister at Stockholm.

Congratulations to: Ellen Terry, for many years the foremost actress of the English stage, 59 years old today.

Sir Cecil Arthur Spring-Rice, the British ambassador to the United States, 55 years old today.

Prince Carl, brother of King Gustav V. of Sweden, 53 years old today.

Sir John Tenniel, the famous cartoonist, 94 years old today.

James A. Hughes, representative in congress of the Fifth West Virginia district, 53 years old today.

Charles S. ("Gabby") Street, former catcher of the Washington American league baseball team, 31 years old today.

### POLITICS AND POLITICIANS.

Pennsylvania Socialists will hold their state convention in Williamsport next month.

Indiana Democrats are to meet in Indianapolis on March 19 to agree upon a senatorial candidate.

Representative George J. Kindel of Denver aspires to the senatorial toga now worn by Charles S. Thomas.

The Public Ownership party in Minnesota has voted unanimously to change the party name to Socialist.

Senator Oliver of Pennsylvania favors the incorporation of a state wide prohibition plank in the Republican platform.

Robert Hunter, well known as a settlement worker in New York, has been nominated by the Socialist party in Connecticut for United States senator.

### ly in Connecticut for United States senator.

James M. Curley, now mayor of Boston, has decided to continue as a representative in congress until the expiration of his term a year hence.

Judge John H. Burford, for many years chief justice of the supreme court of Oklahoma territory, is a candidate to succeed United States Senator Gore.

The Progressive party in Maine plans to name a complete state ticket at the state convention which has been called to meet in Bangor on March 24.

A southern woman suffrage conference is to be held in Birmingham next month in conjunction with the executive board meeting of the National Equal Suffrage association.

The senatorial contest between Congressman Underwood and Hobson, which has kept Alabama in a political turmoil for several months, will be settled in the state primaries early in April.

Job E. Hedges, who was the Republican candidate for governor of New York in 1912, announces that he will be a candidate for nomination again on the same ticket in the primaries next fall.

Charles L. Swain of Cincinnati, who is speaker of the lower house of the Ohio general assembly, has made announcement of his candidacy for the Democratic nomination for United States senator.

Congressman W. S. Hammond, the only Democratic representative from Minnesota, is being urged by his friends to enter the race for the Democratic nomination for governor of his state to succeed Governor Eberhart.

Republican interest in the state primaries to be held in South Dakota next month is centered principally in the contest for the United States senatorship between Senator Coe I. Crawford and Congressman Charles H. Burke.

The mayoralty contest now under way in Milwaukee is one of the most interesting in the history of that city. Mayor G. A. Bading, who was elected two years ago on a non-partisan ticket, is a candidate for re-nomination. Opposed to him are ex-Mayor Seidel, the first Socialist mayor ever elected in the United States; Theobald Otjen, a former representative in congress, and David S. Rose, who served five times as chief executive of the city.

### ICE AND SNOW FORMED CRUST

#### WHICH CLOSED OVER HORSES EYES

William Stumborg of Chapin Neighborhood Relates Unpleasant Experiences in the Recent Storm.

T. H. Pratt and Wm. Stumborg, of the Chapin neighborhood, with Mrs. Pratt and Mrs. Stumborg and Mrs. Chas. Cowdin, came to the city in a sled Thursday and reported the roads as getting constantly better. Mr. Pratt and Mr. Stumborg took an active part in the good work of opening the roads Tuesday. Yesterday Mr. Stumborg said, "I really think that the storm Sunday afternoon and Monday was the worst I ever experienced. I live three miles northeast of Chapin and had occasion to drive to that town Sunday afternoon to meet a passenger on the Wabash train. It was a pretty hard job driving to the station, but the return trip was much worse. The sleet and fine snow blew directly in our faces and the horses suffered more than we did ourselves. The fine snow was frozen to their tails as it fell, and the same thing was true around their eyes. Their eye lashes caught snow and before we reached the barn, both horses had their eyes closed and covered with the frozen snow. After I led them into the barn, I had to warm my hands and then rub the snow from their eyes before they could see at all."

"I have a cattle shed, which is thirty feet deep, but it is located at a point where the wind blew just right to drift the snow way to the back. It is a fact, that there was a big pile of snow, extending clear from the open side to the back wall. I had a number of steers there and some of them were covered with snow to the depth of several inches. In order to make the animals as comfortable as possible, I scattered a lot of straw in the shed, both Sunday night and Monday, and took care of them fairly well in this way, but you would have been surprised to find how damp it was all over that shed."

"As You Like It," by I. C. dramatists at Opera House, Tuesday, March 3rd.

### FOREST NOTES.

Minnesota has a forested area of 28,000,000 acres, the largest of any state east of the Rocky mountains.

There are approximately 4,000,000 acres of timber land in New Hampshire, of which about half in farmers' wood lots.

Forest fires in the United States have caused an average annual loss of 70 human lives and the destruction of \$25,000,000 worth of timber.

## Let Us Hatch 'Em Out for You!

The hatching season is now on and no doubt you will want some early chicks for fryers, broilers or pullets for winter layers. If you want chicks we can supply any amount, but here is something better, you furnish the eggs and we will hatch them out for you at a very low price. By so doing you will not have to wait for the broody hen or fuss with an incubator. Our prices for hatching eggs are as follows:

50 Eggs or more .....3c per egg, \$3.00 per 100  
Less than 50 eggs ..... 4c per egg  
Duck eggs, ..... \$5.00 per 100, not less than 100 accepted

No discount on large orders, nor will we allow for infertile or non-hatchable eggs. We use standard incubators and give the eggs the best of attention. If the eggs are hatchable we can insure a good hatch.

## Willing Workers

By WALT MASON

There are many Willing Workers down among the unemployed, and their lives are spent in trouble and in hardship unalloyed. And they cry, "It's rank injustice that we men of willing hands must be classed with bums and hobos, with the non-productive band. Here we stand and ask for labor, but for work and beg in vain, and there's surely something rotten with the nation's heart or brain. We are little Willing Workers, and no laborers would we shrink, but you make us down-and-outers, for you will not give us work." I have hired some Willing Workers, able bodied men and strong, and they surely worked like blazes—but they always did things wrong. Oh, no odds what job they tackled, they would do it wapperjawed, whether they were herding chickens or just spading up the sod; whether they were fixing fences or repairing buggy sheds, they were willing with their muscles, but they never used their heads. And I always had with a green pain in my back. That is why the Willing Workers had a joint; this is why the stern employers say to them, "Skidoo! Arointi!"

## SICK TREATED FREE NEXT WEEK

**Dr. E. O. Gable, the Neuropathic Specialist, will be at the Hotel Dunlap from 9 a. m. Monday, March 2, until 8 p. m. Wednesday, March 4**

HE OFFERS HIS SERVICES FREE TO ALL WHO CALL ON HIM THIS TRIP.

DR. EDWIN O. GABLE

Dr. E. O. Gable, the Neuropathic Specialist of Chicago will be in Jacksonville to treat some cases, Monday, March 2, and finds it necessary to stay until Wednesday night. He has engaged rooms at the Dunlap Hotel and will examine and pre-scribe for as many people as possible in Jacksonville this trip. He proposes to make examinations and give his services FREE to all sufferers of chronic disease who will call on him this trip.

Dr. Gable's object in doing this is to introduce and explain his new system of treating diseases. He is the author of the Dr. Gable Neuropathic System of treating diseases. This system of treatment is founded on the theory that chronic diseases of body, no matter where located, are caused by some germ or disease deposit settling in that part. This interferes with normal circulation, presses on the nerves and gradually destroys the functions of the organs, causes irritation of the brain and nervous system. He claims that if you can remove this disease deposit, restore circulation and relieve pressure on the nerves, most chronic diseases can be successfully treated, no matter in which organ it is located or how long standing if the treatment is used before the tissues are too badly destroyed.

He has had great success in relieving many old chronic cases where other treatments failed. He absolutely believes that he can relieve almost any case of rheumatism, either acute or chronic. This treatment relieves all curable forms of kidney troubles, bladder trouble, weakness of these organs. It gives almost immediate relief of dyspepsia, indigestion, fermentation, constipation, liver troubles, blood diseases, chronic skin trouble and nervous diseases. He wants every person suffering with any of these diseases to call on him at the hotel this trip. He will be glad to explain fully all about this system of treatment, tell you whether or not in his opinion your case is curable, will give you his services free of charge. If you suffer with any of these troubles you cannot afford to miss this opportunity. Dr. Gable expects to make visits here regularly once a month, and after this trip he will make his regular charges for services to all new patients, but everyone who calls this trip, rich or poor, he will give them every attention. His hours will be from 9 a. m. to 8 p. m. He will be at the Hotel from 9 a. m. Monday until 8 p. m., Wednesday, March 4. Ask for Dr. Gable.

## OPEN WAR ON MONOPOLY ADVOCATED BY BORAH

SENATOR ADDRESSES RT. PUBL. CANS OF OHIO AT COLUMBUS

Speaker Declares Time Has Come For Use of Remedies Not Palliatives in Dealing With Industrial Monopolies—Assails Attitude on This Issue of Leaders of Progressive Party.

Columbus, O., Feb. 26.—Open war on monopoly, was advocated by United States Senator Borah of Idaho, in an address here today before the Republicans of Ohio, at a "get-together" luncheon. The time has come for "remedies not palliatives" in dealing with industrial monopolies and he urged a vigorous policy on the part of the Republican party in this regard. At the same time he assailed the attitude on this issue of such leaders of the progressive party as former Senator Beveridge, of Indiana and George W. Perkins, of New York, who he said maintained that monopolies "were the proper thing and all they need is a little regulation."

"I plead for all men who believe in the principles of the Republican party to aid in its rejuvenation as a genuinely Progressive party," Senator Borah declared that "even if the Republican party was at an end, I could never join the third party so long as it stands, as it now stands, if I correctly understand its leaders, on this question of monopoly."

**Worse Than Black Slavery**  
"Monopoly" said Senator Borah, "is ten thousand times worse than black slavery—it is the father of class domination, the mother of chains both for the body and for the soul, and cannot exist in any form with safety to the people in a Republic. Here, Sir, is where I could never be a third party man. Upon this issue I would have to disagree with that even if I agreed with them upon all others."

**Fruits of Civilization**  
"Mr. Beveridge, who has spoken to you eloquently and effectively, says that trusts and monopolies are the richest, ripest fruits of civilization. He says in print that the beef monopoly, the steel monopoly, the Standard Oil monopoly, and all monopolies are the result of the combination of genius and energy and of great benefit to the people." These industrial organizations, he says (speaking particularly of the beef trust, the Standard Oil company, and the steel trust), have steadied the whole commercial world and have extended the period of prosperity by the steadiness they have given to the commercial and financial world. More than that, he says, they have actually caused, compelled the organization of labor on modern lines.

**What Investigation Disclosed.**  
"I do not know just what he has reference to by 'modern lines,' but I hardly presume he refers to the fact that an investigation two years ago disclosed that the steel trust worked men twelve hours a day and seven days a week."

"The president of one of these great trusts or monopolies says according to his interviews now that he would like to be managed and regulated a little but not dismembered in any way. Mr. Perkins, the most persistent and powerful voice in the United States now of the third party says that it is the thing to do, that these monopolies are the proper thing and all they need is a little regulation."

**Perkins is Consistent.**  
"I cannot imagine a more harmonious affair than my friend Beveridge as attorney general and Mr. Perkins as the head of a board engaged in the regulation of monopolies. But I pay to Mr. Perkins the tribute of consistency. He refuses to turn his back on the method by which he made his great fortune; he thinks it a good system. The Harvester trust with which farmers are quite familiar, is the ideal way to his mind of doing business and the ideal way of being managed."

**Belong Centuries Back.**  
"I am not assailing Mr. Beveridge or Mr. Perkins as individuals. I am discussing their views and policies which they call progressive views, but which I look upon as the views belonging to that time in English history when Queen Elizabeth and other English sovereigns thought that monopolies were the richest, best fruits of civilization and therefore granted monopolies to all her favorite lords and supporters."

"Mr. President, our institutions, and the legitimately earned property of this country, are just as safe and no safer than the average standard of citizenship is high, and monopoly destroys self-reliant, independent citizenship—the only guarantee under heaven or among men for a republic. A republic is strong enough to destroy but never could be strong enough to regulate monopoly. Some of these days all political parties, because the people will rise in their might, will take up this proposition of monopoly and declare in terms unmistakable that a republic and monopoly cannot exist under the same flag—will declare that we will put the man in jail who organizes a monopoly and practices monopoly as quickly as a man who organizes a combination of thieves and takes our property in another way. Do not misunderstand me to oppose regulation and control within certain lines, but regulation and control should always be in aid of and for the purpose of destroying monopoly."

If monopoly ever gained complete control of the country, he said, in less than half a century the people would "rise like their forebears and at the cost of treasure and blood free the limbs and souls of men, as Lincoln, Sumner and Garfield did in former days."

**Charge is "Cowardly Pretense."**  
The charges that the courts stand in the way of destroying monopoly, he described as a "shambling, shift-

ing, cowardly pretense," raised to "conceal the unwillingness to do what ought to be done."

Senator Borah told how a distinguished senator had recently placed in the congressional record as "evidence of prosperity the rise in stocks and bonds," and added that the next morning a paper published that there were 350,000 men out of employment in New York City. While the industrial commission "advised us in plain words that we were up against the proposition as a government of caring for the thousands of the unemployed and hungry."

"This is the prosperity which these combinations brought," he continued. "This is the 'steadying of business' to which the eloquent senator from Indiana refers."

**Afraid to "Disturb Business."**  
"I know people are afraid we will disturb business and that is the thing which has kept us from action until business is no longer free. No legitimate business need fear while on the other hand if we were to release the boundless energies of ninety millions of people to a real new freedom we would experience an era of prosperity such as we never have known."

Senator Borah reviewed the history of the Republican party and its achievements, denied that it was reactionary and asserted that "a party which was the party of progress from 1856 to June 22 at five o'clock p. m., 1912, did not undergo a complete transformation notwithstanding the fact, it is conceded, that a vast amount of virtue then departed."

"I would not stand here," he said, "and defend the old system of holding party conventions, a system which I had opposed years before it was broken down. But on the other hand I utterly reject the proposition that the millions of men and women who constituted the Republican party could be changed in character or purpose through the wrong doings of an antiquated and moribund system of holding conventions."

Senator Borah denounced the Democratic tariff revision, declaring that it had put the farmer on a one trade basis.

"I do not understand how our third party friends can endorse that policy," he added. "And yet it received the votes of all the declared members of the party in senate and the most of the members of the party in the house."

"I do not see why if a man believes in those policies he should not join the Democratic party outright."

## IOWA REPRESENTATIVE CRITICIZES ROCK ISLAND R. R.

Compares Operations of Rock Island to Those of New Haven and Frisco Systems.

Washington, Feb. 26.—Bitter criticism of the Rock Island railway and its financial operations was raised in the house today by Representative Green of Iowa, speaking in support of his resolution to authorize the Interstate Commerce Commission to make an investigation of that road. The speaker compared the operations of the Rock Island to those of the New Haven and Frisco systems, already under investigation, declared that the plan under which the holding companies controlled the finances of the Rock Island was utterly indefensible from any standpoint.

Through the manipulations of the holding companies, Mr. Green asserted, \$121,000,000 of water was poured upon the railway company's stocks and bonds, while the fixed charges of the road had been increased from 40 to 90 per cent.

"The railway company never received one dollar's benefit by or through the stock issued by the holding companies," he declared. "Its origin affords financial free booters an opportunity to exploit the railway and the public."

The speaker further charged that the millions of securities floated by the holding companies "were put up merely for the aggrandizement of a few men without any return being given."

Referring to the equipment of the Rock Island he said:

"It is reported that it has spent \$6,000,000 since 1907 for equipment alone and still it is known that it has not been properly supplied. A chorus of complaints has gone up from the public all along the line for lack of proper service, trains behind time, inability to move traffic, and the road has been heavily mulcted in damages by reason of delayed freight. Wrecks have been frequent and only good fortune has prevented the casualty roll from being large."

An investigation by the Interstate Commerce Commission, Mr. Green declared was the only way to get at the facts.

The operation of the Rock Island, he said, presented a notable example of cases where the board of directors and high officials of the road have not been taken from men trained in the schools of efficiency or practical work. "They have usually been distinguished for operation upon the stock exchange rather than in transportation," he added.

## FRANCE DOUBLES CHARGES ON AMERICAN PRODUCTS

Often Charges Twice as Much Duty on Certain United States Products as Upon Products of Other Countries.

Paris, Feb. 26.—The American Chamber of Commerce, which has been assisting Ambassador Myron T. Herrick in assembling information desired by Secretary of State Bryan, upon which to negotiate new trade treaties with countries which discriminate against the United States, has furnished a large number of interesting instances from which it appears that France often charges twice as much duty on certain American products as upon the products from other countries.

Salmon canned in Canada pays the equivalent of \$4.82 per metric hundred weight, or 220 pounds, while if canned in the United States the duty is precisely double, or \$9.64.

Vegetables canned anywhere except in the United States may come into France for \$1.40 on the hundred pounds, while if they from the United States they must pay \$2.10.

A set of paper making machines from the United States must pay \$18,000 in duty, as against \$9,600 if the machinery comes from Germany.

Sulphur comes in free from other countries, while from the United States it must pay 72 cents per metric hundred weight.

Cheap watches made in Germany pay at the French border the equivalent of 15 cents each in duty, while the cheap watches from the United States must pay a dollar duty.

Watches and clocks of the cheapest sort cost about 50 cents to make in America and the duty therefore is about 200 per cent of the value. In some classifications of watches and clocks the duty on American ones amounts to 300 per cent, or six times the duty on the same sort of watches and clocks coming from European countries. The consequence is that the cheapest American-made time pieces are excluded altogether from the French market.

Scrap iron from the United States pays the equivalent of \$4.24 per ton, while from other countries the duty is the minimum rate of \$2.89. Car truck forgings from America pay \$1.66 per hundred, while if they are from Germany or any other European exporter they pay \$1.05. Senator James H. Lewis of Illinois has been here inquiring why American meats cannot be sold in France. They are excluded on the assumption that they are diseased, but here could be no explanation given to Senator Lewis as to why paraffine wax, produced in large quantities in Chicago, must pay at the rate of \$8.60, while paraffine from other countries need only pay \$5.76 per metric hundred weight.

All classifications of American shoes pay the maximum duties, while their competitors who ship into France pay the minimum French tariff. The consequence is that American shoes, although they amount to about seven per cent of the French imports, make their way under a heavy handicap. It is probable that if American footwear were admitted at the same duty as English footwear the United States would be able to take the whole French market for foreign made shoes, or almost the whole of it.

The details of French discrimination against American products made a long list and besides specific adverse treatment in the custom houses on goods imported direct from the United States sur taxes are laid upon imports direct from America which find their way through other countries. The object of these sur taxes is to compel the importation of American goods in steamships running to French ports.

All these discriminations, however, apply only to about one-fifth of the imports from the United States, the remaining four-fifths being either raw materials, such as cotton, copper, petroleum or manufactured articles which are guaranteed equitable treatment by existing commercial agreements.

### DAIRYING WITH OTHER TYPES OF FARMING

In a recent address Prof. H. A. Harding, head of the department of dairy husbandry of the University of Illinois, said among other things: "Studies of the financial side of the dairy situation, so far as they have yet been made, indicate that dairying to be financially successful should be carried on in connection with other types of farming. The reason for this is quite evident. Owing to the need of milkers, and labor in connection with the corn and alfalfa which must be raised for the dairy a considerable amount of labor is necessary. The corn and alfalfa will keep this labor busily engaged during a comparatively short period during the year. If the farm operations are restricted to the growing of these two crops, during a considerable portion of the year there will be no labor during the day to profitably employ the farm help and horses which must be at hand during the other portion of the year. A consideration of these facts makes it perfectly plain that if dairying is to be conducted most profitably it must be combined with the growth of other crops upon the farm which will profitably employ the men and teams during the time when they should not be otherwise engaged in connection with the dairy operation. Studies of the returns from various types of farms show that these fundamental considerations are well borne out by the results."

## IF MEALS SOUR AND TURN INTO GAS, TAKE SODA

When everything we eat turns to gas and we eructate sour food and acid fluids it means there is an excess of hydrochloric acid in the stomach, says a noted authority. This irritating acid retards the process of digestion and promotes food fermentation. Our meals sour in the stomach like garbage sours in a can, forming gases which inflate the stomach like a toy balloon, causing a heavy, lumpy misery in the chest, constant belching of gas, sour risings or heartburn, fullness and often nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy a package of 10 grain Soda-gas tablets and take one tablet anytime followed by a tumbler of water which will instantly neutralize acidity, stop food fermentation, absorb the gases and sweeten the entire digestive system.

He further states that those troubled with chronic acidity should take one tablet regularly, an hour after meals for a while, as this simple antacid is entirely harmless, being composed of Soda, Magnesia and Calcium Carbonate U. S. P.—Adv.

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Try This! Hair Gets Thick, Glossy, Wavy and Beautiful at once—Stops Falling Out.

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff! cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will they do for you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.—Adv.

Best Liver and Bowel Cleanser and Stomach Regulator in the World—Work While You Sleep.

Get a 10-cent box. Put aside—just once—the Salts, Pils, Castor Oil or Purgative Waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the contaminated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach, or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

## BREAKS A COLD IN A FEW HOURS—PAPE'S

First Dose of Pape's Cold Compound Relieves All the Grippe Misery—Contains No Quinine.

Don't stay puffed up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.—Adv.

### CATARH VICTIMS

## ANTI-TRUST LEGISLATION TO AIM AT DISSOLUTION

Representative Carlin Does Not Think Proposed Laws Will Provide Paternalistic Regulation of Great Monopolies.

Philadelphia, Feb. 26.—Dissolution and prevention of oppressive business combinations, not paternalistic regulation of great monopolies, is what Representative Carlin of Virginia, thinks will be the object of Democratic antitrust legislation. Mr. Carlin, who is a member of the house judiciary committee is aiding in the preparation of the administration's program for trust legislation, opened a debate here tonight before the Academy of Political Science on "The Relation of the Federal Government to Trust and Industrial Combinations."

Although the speaker covered the whole field of proposed legislation, he dwelt particularly upon the Clayton-Newlands trade commission bill now pending before the house and senate committees. Defending the purpose of this measure to limit the scope of the proposed commission instead of giving it the vast powers, including authority to fix prices, contended for by many.

"It should be understood that the trades commission proposed by the Newlands-Clayton bill," said Mr. Carlin, "if enacted into being, has no such power, no such purpose, no such paternal influence, as is contended for by many, but on the other hand, it is proposed to establish a commission in aid of the economic principle of dissolution. The Clayton bill recognizes that the machinery of the courts, and indeed, the courts themselves, are not equipped as they should be to accomplish the most efficient and desirable results. A court in the contemplation of the dissolution of a great combination, should have the aid of a commission empowered to investigate any matter that may be referred to it by the court when a proceeding of dissolution brought by the government, is pending, even 'unscrambling of the egg,' may have the benefit of the knowledge of a scientific commission in the drafting of an intelligent, comprehensive and efficient decree."

"The Clayton bill meets this necessity, and none other is contemplated, save that of intelligent aid to the court when in the judgement and discretion of this tribunal it is desirable."

Advocating supplemental legislation to the Sherman law, Mr. Carlin discussed proposed measures to give individuals the benefit of government decrees in suits against monopolies, and to prohibit interlocking directorates.

"The decisions of the supreme court in the Northern Securities, Standard Oil, and Tobacco cases, and others along the same line," he continued, "have given splendid effect to the Sherman law, out above and beyond all else, they have established the fact that the relation of the federal government to industrial combination is now one of a fixed and growing purpose, to restore individual efforts, to encourage honest dealings and trade by big business and to insure the great body of the people against the tendency to extract from them exorbitant prices for the supplies and necessities of life."

There has been nothing proposed, and, in my judgment, nothing will be proposed, which has for its object the destruction of the game of business, if it may be so designated, but to the contrary, we are simply contemplating changing the rules by which the game may be played with greater fairness by all who wish to enjoy its privileges and its pleasures."

### CHAPIN.

There will be a lecture by Rev. Mr. Teaney of Franklin at the Christian church Friday evening, Feb. 27. After the lecture, which will be free to everyone, oysters will be served by the men of the church at the usual price. Everybody cordially invited to attend the lecture and stay for the oyster supper and social time afterward.

H. O. Woodward and wife went to Springfield, Friday last. Mr. Woodward returned Saturday evening and Mrs. Woodward intended to return Sunday evening, but was unable to do so on account of the heavy fall of snow, until Wednesday evening.

Misses Julia and Margaret Woodward left Wednesday for Citronelle, Alabama, for a two months' stay, for the benefit of Miss Margaret's health.

W. Woodward made a business trip to Jacksonville Tuesday. Harold Woodward has moved into a part of the T. R. Biggers house and William Stout has bought and moved into the Anderson property vacated by M. Woodward.

The rural carriers did not attempt to make their routes Tuesday on account of the drifted roads. Some of the way snow was ten feet deep. They are trying to make it today (Wednesday) on horseback.

Mrs. J. F. Burnham is visiting relatives and friends at Manitou and Forest City for a few weeks.

**BIDS FOR ELECTRIC PUMP.**  
Sealed bids will be received by the city council of the City of Jacksonville until 12 o'clock noon, Friday, February 27th, 1914, for one 75 H. P., three phase, 60 cycle, 2300 volt motor; also one pump capable of delivering 1,000,000 gallons in 24 hours against a total of 270 head. Specifications for said equipment are now on file in this office. The city council reserves the right to reject any or all bids.

Charles R. Knollenberg, Commissioner of Accounts and Finance.  
Jacksonville, Ill., Feb. 16, 1914.

## SEVERAL AMERICAN CITIZENS ARE CAPTURED BY BRIGANDS

DORAZZO, Albania, Feb. 25.—According to information from Agent Spencer, who is watching Albanian affairs at Elbassan in behalf of the American government several American citizens have been captured by brigands near Elbassan, they are supposed to be former Albanians with American naturalization papers. Five American citizens have been arrested at Pogradetz and threatened with execution for teaching the Albanian language. The matter has been referred to the American embassy at Rome by the American Protestant missionary here.

It is considered probable that these Albanian-Americans are the victims of some tribal feud.

### There's No Corn That "GETS-IT" Won't Get

No More Fussing, Plasters, Salves and Corn Pains. Try the New Way.

"Just look at the way that corn comes off!" That's what you'll say when you try wonderful "GETS-IT" on that corn you've tried so long to pry off of your toe. It's

Madam, For Those Corns That Make You Jump Out of Your Shoes, Try Wonderful "GETS-IT," easy to apply "GETS-IT"—one, two, three, and it's done! The corn begins to shrivel, away she goes, surely, absolutely. A few drops will do it. "GETS-IT" never makes toes red and raw. Corn pains go! It means the end of cutting and gouging of corns, the end of sticky plasters that don't work anyhow, the end of salves that eat up your toes, no more "barnes" or fustian. Try "GETS-IT," the new, sure way, for corns and calluses.

"GETS-IT" is sold by all druggists, 30c a bottle, or sent direct by E. Lawrence & Co., Chicago.

## DOMESTIC SCIENCE TALK INTERESTS MANY WOMEN

Miss Florence H. Churton of I. W. C. Talks to Housewives of Jacksonville on "How Can I Feed My Family for Less Money."

The afternoon for Housewives, Thursday at the public library, was well attended and much interest was shown in the talk by Miss Florence H. Churton, head of the Department of Domestic Science at the Woman's College, who took as her subject, "How Can I Feed My Family for Less Money?" "Prices will not again be very low," said Miss Churton. "Values of commodities may show fluctuations, economic students tell us, but the high cost of living is here to stay and it is the part of the progressive housewife to do all she can for its reduction." An interesting feature of Miss Churton's talk was a collection of well prepared charts illustrating the substitution of foods costing less for high priced articles of diet and giving a number of the simpler menus.

Although it may be true that prices will not be permanently lower the up-to-date housewife may save much by watching the market and taking advantage of its fluctuations as they occur. The "Housewives' League" and the various periodicals devoted to the interests of women have done much in spreading information on this subject. The lower tariff will reduce prices on some articles, and the housekeeper should be on the alert to take advantage of every reduction however slight.

**A Wasteful People.**  
"The importance of this question can hardly be over-estimated. The average man spends from 25 to 30 per cent of his income for food. The American people are notoriously wasteful, and it is certainly up to them to live down this reputation so long as many are without work and proper provision for their comfort. By using discrimination in her buying and exercising the proper economy the housewife can do her part toward lessening this tendency to waste."

"The best is not necessarily the highest in price. Many low or medium priced cuts of meat contain more nutriment than the most expensive ones. Chuck steak at 14c per pound will answer in many cases as well as porter house at 25c. Oleomargarine and lard are as good if not better, than butter for many kinds of cooking."

**Should Study the Market.**  
"Women should study the market and learn the various articles of food, and cuts of meat so as not to be imposed upon by the unscrupulous dealer. Butchers will often substitute cuts of meat, it is said, when they think the housewife is not really acquainted with the market. Much can be saved by buying in bulk and in case lots. A trade mark or a fancy carton costs money and this may be saved by insisting that the dealer keep his establishment up to a proper standard of cleanliness. Housewives, so far as possible, should do their marketing in person. It is so easy to step to the telephone and give the order, allowing the merchant, many times, to send inferior or lower priced goods."

In the charts and tables, Miss Churton showed a number of interesting facts regarding comparative food values. Animal foods are invariably high and it is waste to use them in excess when muscle-building foods of vegetable origin would answer the purpose just as well. It takes ten pounds of grain to produce one pound of meat. Too much meat is expensive in another way for it is liable to cause disease. The bill for spring tonics and the services of the doctor and dentist can thus be reckoned up with the food expense account as they would not exist were the diet properly regulated.

**A Profitable Book List.**  
Following are a number of volumes recommended by the librarian as of interest to those who appreciate the importance of the question, "How Can I Feed My Family for Less Money?"

- The books: Bruere—Increasing Home Efficiency.
- Farmer—Boston Cooking School Book.
- Frederick—The New Housekeeping.

**NEW BRUNSWICK LEGISLATURE**  
Frederickton, N. B., Feb. 26.—The New Brunswick legislature was formally opened this afternoon by Lieutenant Governor Wood, attended by a large military staff, and with the usual ceremonies. The guard of honor was furnished by the Royal Canadian regiment and the York regiment, while the 12th battery of the Canadian Field Artillery of Newcastle fired a salute of fifteen guns at the appointed hour for the opening of the proceedings. The legislative program forecasted for the session is rather shorter than usual, though several important measures relating to internal improvements and the development of commerce and industries are to receive attention.

## FRECKLES

February and March Bring Out Un-sightly Spots. How to Remove Easily.

The woman with tender skin dreads February and March because they are likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle.

Fortunately for her peace of mind, the recent discovery of a new prescription, othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength othine should remove them.

Get an ounce from your druggist and banish the freckles. Money back if it fails.—Adv.

## EDUCATORS WILL HOLD SESSIONS IN LOUISVILLE.

Largest Educational Conference of the South Will Be Held There.

Louisville, Ky., Feb. 26.—Louisville is preparing to entertain early in April what promises to be the largest and most notable educational conference ever held in the south. The occasion will be the first joint convention ever held by the Southern Educational association and the conference for education in the south.

The chief purpose of the joint meeting of the two bodies will be to secure a closer co-ordination of the educational forces in the south. The Southern Educational association embraces in its membership hundreds of teachers throughout the south, representing every branch of educational activity, from the country school to the largest colleges and universities. The annual conventions of the association are devoted to the consideration of practical problems of teaching and school management.

The Conference for Education in the South, on the other hand, is not a teachers' association for the discussion of technique of the school room. It is a coming together of the representatives of all classes who have at heart the welfare of the country, and believe the largest factor in the production of this welfare is the right education of all the people for the duties and responsibilities of industrial, civic, social and religious life.

The feeling of the two bodies in conjunction is expected to attract not only a vast number of educators but also a host of statesmen, editors, lawyers, physicians, farmers, merchants, preachers, manufacturers, public spirited and thoughtful men and women of all professions and from all walks of life, who will meet to discuss in a broad, practical, non-technical way the fundamental problems of education and life in their application to conditions in the south.

## HOPE FOR WARMER WEATHER.

S. Surratt and J. J. Carrigan of the Woodson neighborhood managed to get to Jacksonville yesterday by driving in a sled across fields. They say that the roads along the rural route out of Woodson are still impassable in many places and there has been no mail delivery since Saturday. In many places the snow is piled so high that it is considered practically useless to get men and teams to try and remove it. The residents out there are consequently hoping that warmer weather will come soon and melt away some of their troubles.

## WERE VALUABLE HORSES.

The three horses which were killed by a C. P. & St. L. train Wednesday night were owned by Spencer Carpenter. There were two driving mares and one horse and Mr. Carpenter said yesterday that he would not have taken less than \$600 for the animals.

## CIRCUIT COURT NEWS.

### Chan'ery.

Last evening Mr. and Mrs. H. H. Richardson, residing near the Point, right pleasantly entertained a company from this city. ## Can't Help But Admire Babies

Every Woman Casts Loving Glance at the Nestling Cuddled in its Bonnet.

A woman's heart naturally responds to the charm and sweetness of a pretty child, and more so today than ever before since the advent of Mother's Friend.

This is a most wonderful external help to the muscles and tendons. It penetrates the tissues, makes them pliant to readily yield to nature's demand for expansion, so there is no longer a period of pain, discomfort, straining, nausea or other symptoms so often distressing during the anxious weeks of expectancy.

Mother's Friend prepares the system for the coming event, and its use brings comfort, rest and repose during the term. This has a most marked influence upon the baby, since it thus inherits a splendid growing system of nerves and digestive function.

And particularly to young mothers is this famous remedy of inestimable value. It enables her to preserve her health and strength, and she remains a pretty mother by having avoided all the suffering and danger that would otherwise accompany such an occasion. Mother's Friend thoroughly lubricates every nerve, tendon and muscle involved and is a sure preventive for caking of the breasts.

You will find this splendid remedy on sale at all drug stores at \$1.00 a bottle, and is highly recommended for the purpose. Write Bradford Regulator Co., 134 Lamar Ridge, Atlanta, Ga., and they will mail you sealed, a very instructive book for expectant mothers.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

Of course you will want that new Spring Suit and Light Top Coat made to your individual measure—made to fit you. And

More especially will you desire it when you fully understand that the cost will be no greater than that demanded for clothing that is made for anybody—manifestly inferior in every respect, and nine times out of ten not the pattern you would select if you had the opportunity of choice from a wide variety of goods in the piece.

Not only will the cost be no more and you be entirely suited as to pattern, but the garment that is made to fit you will retain its shape and look well until it is completely worn out—not so with factory made garments.

We are showing now the very latest patterns for Spring suits, top coats, fancy vests and extra trousers. You are going to buy new garments of this kind, so why not come in now and look over these new patterns and make your selections at your leisure. Easter Sunday is not far away. ## AGGRESSIVE BEAR PARTY RENEWS ATTACK ON STOCKS

Better Demand Appears at Lower  
Level and Downward Movement is  
Checked

(By Associated Press.)

New York, Feb. 26.—The aggres-  
sive bear party which took control  
of the market yesterday renewed the  
attack at the opening today. There  
was heavy selling but the decline  
was small and of short duration. A  
better demand appeared at the lower  
level and the downward movement  
was checked. The shorts, unable to  
bring about a further break began  
to cover and prices arose fractionally  
above yesterday's close. There the  
movement ended. Trading in the  
latter part of the day was light.  
Foreign selling was less of an in-  
fluence than on the preceding day,  
although London, continued to dis-  
pose of stocks here.  
Denver and Rio Grande and Rock  
Island shares made good gains and  
the declines in Missouri Pacific and  
the Washash and Missouri, Kansas  
and Texas stocks were halted. Oper-  
ators on the long side made no at-  
tempt to force up the market. The  
possibility of a shift at any time in  
the Mexican situation made traders  
reluctant.

## COMING TO JACKSONVILLE

AT HOTEL DUNLAP

Wednesday, March 4th

One Day Only—Rain or Shine.  
**Healer, Apparently Works  
 Miracles Before Multitudes.**  
 HER WORK IS LARGELY A  
 LABOR OF LOVE.  
 TREATMENT FREE.

"One of the many remarkable features about Hulda DeMuth, the noted Healer, is the extraordinary amount of attention she attracts everywhere she appears. The crowds that have been flocking to her, day after day, have simply been enormous. The hotels at some places in the east, would close the doors long before noon, as all could not get in. Sufferers would come from near and far. All with ailments of one sort or another. None were turned away—rich or poor."

Hulda DeMuth,  
 (who has healed the sick, since a mere child.  
 How or why, she could never tell)  
**THROWS HER OLD, CROOKED  
 CANE AWAY.**  
 One Ministration by Hulda DeMuth  
 Does the Work.

**Rheumatism.**—Mrs. Hy. Wylweber, R. 3, Galena, Ill., (near ex-President Grant's home), bravely withstood the pangs of sciatic rheumatism for fifteen long years; one limb was shorter than the other; could not even walk across an ordinary room without a cane. She became very disheartened, for she had suffered and tried so much. She even scoffed at Hulda DeMuth, until she personally met her. However, she immediately threw her cane away—presented it to Hulda DeMuth, for she had no further use for it. The cane, photo, testimonial, etc., of Mrs. Wylweber and others will be on exhibition, above date.

**Another Case:** Mrs. Wm. Miller, R. 2, Shannon, Ill., suffered so with rheumatism she had to be turned in bed for months; for nothing could help her. She often wished she were dead. However, without even seeing the patient, through the Silent or Absent treatment, by Hulda DeMuth, Mrs. Miller soon jumped out of bed, shouting and praising the Lord for her "miraculous" recovery.

**Blindness.**—Mr. Hollis Johnson, Elgin, Ill., doctored with the best eye specialists in several states, for years he was almost blind. Yet, in one treatment from Hulda DeMuth he could see almost as well as ever, and a few weeks later pronounced himself permanently cured.

**Ulcerated Limb.**—Mr. Gersema, hotel proprietor, Appleton, Ia., could not stand on ulcerated limb for about a year. Yet, in a few days' Absent treatment, from Hulda DeMuth, he was practically well, although far past seventy years of age.

**Fits.**—Mrs. Asa Tucker, Stockton, Ill., writes: "Everything turned out just as you told us. We shall always remember you for your loving kindness. Our boy had fits; neither could he walk; talk; sit up; and was cross-eyed."

There is no use allowing your prejudice ignorance, false opposition. Investigate, and convince yourself.

**What Is This Peculiar Power?**  
 A committee of scientists from the Academie de Medicine, Paris, used all sorts of electrical and mechanical appliances to discover, if possible, the nature of the current of force.

**"It Is A Divine Gift."**  
 Says Hulda DeMuth, healer.  
 "Power to heal the sick and afflicted comes from above. It is a divine gift. Without the help of God I could do nothing. I am only a tool of His."

Let the doubters doubt, and the scoffers scoff, but the truth is mighty. **Is a Friend to the Poor and Afflicted.**  
 A Most Glorious Opportunity.

Hulda DeMuth is spending a vacation-trip, touring across the country. She will make a few stops along the route; and this city happens to be one of the fortunate ones. TESTING SEED CORN  
IS VERY IMPORTANT WORK

Fact That Seed Will Grow Should Not Satisfy Farmer—Must Have Strong Vitality—The Rag Doll Tester.

Seed corn should be tested three weeks prior to planting time. The middle of March is not too early for the corn belt farmer and is often a time when other duties are not pressing.

Some farmers think that because the winter has been mild any good looking corn will do to plant. It is also too often considered that the only necessary test for seed corn is that it shall show a reasonably high per cent of germination, not taking into consideration that the seed kernel may furnish more or less nourishment to the young corn plant as well as to the germ, which itself may have high or low vitality.

When seed corn is in perfect condition the kernel will furnish its entire contents toward the support of the young plant, but if it has been injured, only a small part of its contents may be used by the growing plant. In other words, corn may contain vitality enough to grow, yet be too weak to produce a healthy stalk; in such case a shortage in yield would not be due to a poor seed, but to the lack of crop vitality.

**The "Rag Doll" Method.**  
 It is not necessary to buy a high priced seed corn germinator. One can be made much more cheaply and serve the purpose as well. Take a strip of unbleached muslin at least 10 inches wide and 5 or 6 feet long; stretch the strip on a table, moisten it with water, and with a straight edge, and a colored wax crayon, mark it into a series of squares measuring 3 inches. Give each space thus marked out, a number. Now take an ear of corn that is to be tested and with a knife blade remove kernel from near the butt; turn the ear slightly and remove another kernel from near the center, continuing until 6 kernels have been obtained from all parts of the ear. Place the 6 kernels in a numbered space on the cloth; give the ear the corresponding number and put it carefully away for future reference. Continue in this manner with other ears until all spaces are filled. Then, beginning at one end, around a piece of board an inch wide, carefully roll the whole; tie a string around it, place it in a pail of water for 12 hours, then pour off the water, turn pail upside down, raise pail one inch for ventilation, keep in ordinary living room temperature, and on the fifth day, carefully unroll and read the test. If some kernels have produced only weak, slow growing, spindling sprouts, this indicates weak vitality—throw out the ear bearing the corresponding number.

**Simple, Cheap and Efficient.**  
 This is the cheapest tester made. Any one can make it in a few moments. Testing seed is the simplest, easiest and most profitable task a farmer has, and one of its best features is that once he has tested his corn properly, he makes it a permanent practice—H. A. McKeene, secretary, Illinois Farmers' Institute.

**BOOSTERS DETERMINED THAT  
 REST ROOM BE ESTABLISHED.**  
 Have Entered With Enthusiasm Upon Movement to Secure Needed Improvement.

The project of having a rest room in Jacksonville is now being actively agitated by the Young Men's Booster club. The matter was referred to the executive committee for special action, but each member of the organization seems to be interested. Letters have been addressed to the Woman's club and to other organizations to see what aid can be given the movement and it now seems certain that by a united effort the greatly needed rest room can be secured.

One plan suggested is to change the pagoda in the park in such a way that it can be utilized for the purpose intended and another plan is to secure a storeroom on a street adjacent to the square for the purpose. Advantages for each plan and objections to each have been advanced, but the young men will get together on one of the other of the plans just as soon as the funds needed can be made certain. It is proposed to have a rest room with an attendant in charge and with such conveniences that it will fill a want in Jacksonville which has long been understood.

**"WITHIN THE LAW" TONIGHT.**  
 "Within the Law," Bayard Veiller's melodrama of modern conditions in New York life, which will be seen at the Grand Theatre Friday, Feb. 27, treats interestingly of the minimum wage in that it tells the story of a shopgirl who is unjustly accused of theft and sent to state's prison for three years. In the first act, she has a terrific scene with her employer, the owner of a department store, known as the "Emporium," in which she tells him in plain language of the temptations which he places in the paths of his girl employees through starvation wages and the consequent privations they are forced to undergo. The rest of the play is devoted to the absorbing story of "Mary Turner's" revenge. In association with a gang of "crooks" Mary preys upon society, but manages to keep within the pale of the law always. Dr. C. H. Parkhurst, the eminent clergyman, said of Mr. Veiller's play, "every employer in the country should see 'Within the Law.'"

**EARLY HATCH OF CHICKS.**  
 Miss Lena De Ornellas has taken 275 chicks from an incubator, all healthy and fine. She put 399 eggs in and thinks the hatch a good one for this time of the year.

## MINIATURE SCHOOL COLONY

Making the school grounds a miniature colony, with the pupils busily engaged in all kinds of productive occupations, is the device of the Birley House school, an open air school in England, as described in a bulletin just issued by the United States bureau of education.

Various minerals—coal, iron ore, copper ore, lead ore, and gold quartz—are buried in different parts of the school garden and the children go out "prospecting" for them. The finders become captains on industry. To work the mines the captains of industry engage laborers at the labor exchange, which is managed by one of the pupils. Boring is then proceeded with, shafts are sunk, winding apparatus is constructed, and the mineral is brought to the surface.

Here arises the need of coal, and a system of transportation in the form of a miniature railway is organized, factories are planned the possible markets for the product are considered, and the importance of a merchant marine is recognized.

In close connection with the industrial side of the colonization scheme the agricultural plan is developed. A portion of the garden is cleared, a miniature farm of six fields is prepared, and the different methods of fencing are applied to these fields. The ground is plowed and crops are sown in rotation—wheat, potatoes, barley, oats, clover, and cabbage. A thatched hut is built and furnished to serve as a homestead for the farmers, and the necessary outbuildings—barn, stable, wagon shed, pigsty, poultry house and dog kennel—are built.

All the school work is done in close relation to the community activities. Practice in woodwork and carpentry is obtained by making rabbit warren, an aviary, insect cases, garden frames, cases for weather instruments, etc. The use of "puddling" clay and the mixing of concrete and cement are illustrated by constructing a pond, drain pipes and other mason work. There is practical arithmetic in the measurement of lengths and distances, in estimating costs and quantities, in finding heights by means of simple instruments in making records of rainfall, barometer, thermometer, sunshine, etc., and in other calculations required in garden and manual work.

## A MESSAGE TO WOMEN

Who Are "Just Ready to Drop."

"When you are 'just ready to drop,' when you feel so weak that you can hardly drag yourself about—and because you have not slept well, you get up as tired-out next morning as when you went to bed, you need help."

Miss Lea Dumas writes from Malone, N. Y., saying: "I was in a badly run-down condition for several weeks but two bottles of Vinol put me on my feet again and made me strong and well. Vinol has done me more good than all other medicines I ever took."

If the careworn, run-down women, the pale, sickly children and feeble old folks around here would follow Miss Dumas' example, they, too, would soon be able to say that Vinol, our delicious cod liver and iron remedy, had built them up and made them strong.

It is a wonderful, strength creator and body builder, and we sell it under a guarantee of satisfaction. You get your money back if Vinol does not help you.—Lee P. Alcott, Druggist, Jacksonville, Ill.

P. S. For any skin trouble try our Saxo Salve. We guarantee it.—Adv.

### CHAMINADE CLUB HELD OPEN MEETING THURSDAY

Excellent Program Was Given at Brown's Music Hall—Eighteenth Anniversary of the Club Recently Observed.

An open meeting of the Chaminade Music club was held Thursday afternoon in "Brown's Music Hall." A large number of invited guests were present and enjoyed a fine program, which had been carefully prepared, and was brilliantly executed. February 10, was the 18th anniversary of the club since organization, and its members are faithful, energetic and ambitious musicians, who work and aim each year for the advancement of the club with ever increasing interest and enthusiasm. This club ranks high in the "National Federation of Music Clubs," with which it has been identified for several years. It is an inspiration for its members to be in touch with this great organization and the hundreds of cultured musical people it stands for.

The program exchange conducted by the federation librarian brings the clubs very near to each other and is of mutual benefit. The program for the afternoon was as follows:

Romance from E minor Concerto, Op. 11, (two pianos) Chapin—Mrs. Edgar Martin, Mrs. Frank Hairgrove.

(a) Obstinata—Fontenailles.

(b) A Field of Daisies—Aspinall—Miss Cora Gordon Graham.

### MRS. ARTHUR SEYMOUR HOLDS PUBLIC SALE.

Disposes of Property and Will Make Her Home in Franklin.

Mrs. Arthur Seymour held a public sale at her residence 2 miles southwest of Franklin Thursday afternoon which was largely attended and everything commanded good prices as the bidding was spirited. Mrs. Seymour expects to move to Franklin. Prices which prevailed follow: one pair mules, \$355; horses, \$62.50 to \$110; cows, \$52 to \$74; calves, \$15 to \$28.50; brood sows, \$20 to \$31; shoats, \$4.50 to \$9. 29 other hogs averaged \$14.50; clover hay 65 1-2 cents to 66 cents; oats straw, 42c; timothy hay, 61c; oats, 42c per bu.; corn, 65c per bu.; implements brought extra good prices.

J. G. Cox was the auctioneer and William Wells the clerk. The Ladies Aid society of the Franklin M. E. church served lunch.

### COULD NOT FEED CATTLE.

Cattle feeding was one of the difficulties experienced by a number of farmers on account of the snow storm and one man who had 200 head of cattle on timber pasture land near Waverly was unable to get to his stock for two days—from Sunday night to Tuesday evening. The feed was a mile and a half from the stock and the drifting snow made hauling the feed over the roads or through the fields impossible. A path was finally made through the drifts Tuesday evening, when the hungry cattle were relieved.

### SUPREME JUSTICE LURTON ELIGIBLE TO RETIREMENT FROM BENCH

Eminent Jurist Has Reached Seventieth Mile Stone—Two Associates Have Also Passed Age Which Entitles to Retirement With Full Pay.

Washington, Feb. 26.—Associate Justice Horace H. Lurton received congratulations from his colleagues on the supreme bench today on the occasion of his seventieth birthday anniversary. Justice Lurton is a native of Kentucky, but has resided the greater part of his life in Tennessee.

With the attainment of his seventieth year Justice Lurton becomes eligible to retirement from the bench. It has been a pretty general rule among the members of the court to take advantage of the law which permits them to retire with full pay when they have reached the age of seventy, though in the case of a few members who have been blest with robust health they have waived the rule and have continued to grace the woolstack for several years after they have reached the age of earned retirement.

At this time there are two members of the court eligible to retirement besides Justice Lurton. They are Justice Oliver Wendell Holmes, who will be 72 years old next month, and Justice Joseph McKenna, who was 70 last August. In addition, Chief Justice White will become eligible to retirement next year, so that several changes in the personnel of the highest court may take place before the end of President Wilson's term of office.

Should three or even four of the members of the court resign, retire or die during the next three years, President Wilson would probably appoint Democrats to succeed them. At the present time the Republican members outnumber the Democratic members on the bench two to one, so that the appointment of as many as four Democrats would give that party a majority of only one.

Presidents have generally felt themselves limited to their own party in making appointments. In his appointments of Justices Lurton and Lamar, both of whom are Democrats, President Taft almost created a precedent. The only other president who stepped over party lines in selecting a member of the supreme court was Benjamin Harrison. Just as he was about to be succeeded by a Democratic president, Mr. Harrison appointed his friend, Justice Jackson of Tennessee, to the bench.

Every president who has served his full term of four years has had an opportunity to appoint one or more justices to the highest court. No appointments were made by Presidents William Henry Harrison, Taylor, or Johnson, but none of these three served a full term of office. Five is the largest record first established by Jackson, and later matched by Lincoln, Grant and Taft.

The supreme bench always has been an object of reverent admiration in Mr. Taft's eye. It is well known his personal ambition led him in the direction of the supreme court, and if he had had his way he would have preferred to have been an associate on the highest tribunal rather than to have taken his place in the line of presidents. As president he appointed to the bench men who were known to be conservative and of unquestioned legal ability and reputation.

In the natural course of events the present administration is likely to witness the disappearance from public life of several of the eminent publicists now numbered among the members of the supreme court. A great power will thus be vested in the hands of President Wilson. It is to be expected that he will appoint lawyers whose views coincide with his own. In other words, there will be placed upon the bench men who will interpret the law along the advanced lines which Mr. Wilson always has advanced.

### HOLD INQUEST AT STATE HOSPITAL.

Owen Haugh Passes Away Suddenly at Institution Thursday Morning.

Owen Haugh of Springfield, a patient at the Jacksonville State Hospital, died Thursday morning at 5 o'clock and the verdict of a coroner's jury attributed his demise to "acute cardiac dilation of the heart."

Coroner George W. Wright went to the institution and secured a jury composed of J. M. Summers, foreman; J. W. Sargent, Shelly Sargent, Andrew McNamara, James B. Mauzy and Patrick Devlin, clerk. Three witnesses, Thomas Deaton, night supervising nurse; Ernest Ridenhour and Dr. E. J. Strickler were heard. Their testimony was to the effect that the deceased had complained for some time of suffering a pain over his heart and that although he seemed as well as usual Wednesday night, he was awake and suffered a coughing spell about 3:30 o'clock Thursday morning. Mr. Ridenhour informed the night watchman that the man was dying and Dr. Strickler came through the ward at 5 o'clock. The physician said that in his opinion death was caused by acute cardiac dilation of the heart, and the jury returned a verdict in accordance with this testimony.

Public sale of W. H. Galloway postponed to Monday, March 2nd.

#### D. A. R. CONCERT GIVEN AT SCHOOL FOR THE BLIND

Chorus and Orchestra of Institution and Members of Rev. James Caldwell Chapter Present Washington Entertainment.

The Washington concert at the school for the blind for the Rev. James Caldwell Chapter, D. A. R., was given Thursday evening at 8 o'clock before a large and appreciative audience. The program was first announced for Tuesday, but was postponed on account of the extreme bad weather. It consisted of musical and literary numbers and was presented by members of the local chapter of the Daughters of the Revolution together with the orchestra and chorus of the school for the blind. Miss Lillian Adele Smith directed the chorus and Fred G. Myers lead the orchestra. George Gerlach acted as organist and Mrs. Helen McDougall James as pianist. The accompanists were Miss Inez Huckleby and Mrs. Helen Ayers Bulard. The program was planned by Miss Susan Draper, teacher of piano at the school, and a member as well of the Rev. James Caldwell chapter, D. A. R.

**SUCCESSOR TO TODD NOT NAMED**  
Sheriff Rogers when asked yesterday who he would appoint as deputy to succeed W. F. Todd said that he was not yet able to make the announcement. The sheriff intimated that possibly no appointment would be made until some time next week.

See J. H. S. play Mt. Sterling this morning at 9. Be there.

**THE SCORE:**  
Litchfield, 10; Canton, 32.

What appeared to be a close game in the first half between Litchfield and Canton, turned out to be a victory for Canton, the final score being 32 to 10. In the first half the score was 6 to 4 in favor of Canton. Harmon played a star game for the Cantonites making 14 points. Litchfield's team work was not as good as Canton in the latter part of the game.

Quincy, 35; Griggsville, 32.

One of the features of the evening games was the wonderful strength Griggsville showed in the second half of their contest with Quincy. If Griggsville had displayed half way the team work in the first half they did in the second, the Pike county boys would still be in the game today. Farrand and McHose played splendidly for Griggsville and Wharton was also good. Quincy had a star man in the person of Wilson. He had an eye for the baskets last night and succeeded in dropping eleven pretty ones in, making 22 of the total 35 points his team won. Spectators were of the opinion that if the game had continued five minutes longer Griggsville would have won out.
